The journey starts *here*

Welcome to the University of South Australia. We are a globally connected and engaged university helping solve the problems of industry and the professions. Our teaching is industry-informed, our research is inventive and adventurous. We create knowledge that is central to global economic and social prosperity. Our graduates are the new professionals, global citizens at ease with the world and ready to create and respond to change.

We are Australia's University of Enterprise.

City West Campus / Featuring Pridham Hall with a fully-equipped sport centre, swimming pool and graduation space, along with the award-winning Jeffrey Smart Building including state-of-the-art learning spaces, library facilities and tech zones.

DISCOVER ADELAIDE

The University of South Australia is located in Adelaide, Australia's education city. Adelaide is a cultural destination, filled with many different nationalities, foods, festivals and sporting events. It is home to some of the country's best beaches, wine regions and parklands, all in very close proximity to the city centre. Adelaide has been globally recognised for its education, environment, stability, healthcare, culture and infrastructure. It is the ideal study location and with free Wi-Fi, free tram and free bus services throughout the city centre, Adelaide is truly a student city.

**RANKED AS THE
WORLD'S 10th MOST
LIVEABLE CITY**

*2019 Economist Intelligence
Unit's Global Liveability Index*

**RANKED IN THE
WORLD'S TOP 30
BEST STUDENT
CITIES**

*Adelaide Ranked #26, QS
Best Student Cities 2019*

**RATED ONE OF
THE WORLD'S
FRIENDLIEST CITIES**

2018 Condé Nast Traveller Awards

Glenelg Beach / Located just 12 kilometres away from the city, Glenelg offers classic seaside charm with a white sandy beach known for great swimming, diving, snorkelling and dolphin spotting.

Adelaide. *Designed for Life.*

Adelaide is a city shaped by stories. The first of these stories were created by the Kaurna people of the Adelaide Plains, which remain alive today and are interwoven with the stories of all the people who choose to live, work, study or spend time in the city. Adelaide is a celebration of diversity and inclusion with a strong sense of community. Its unique layout makes it the world's only true 'city in a park'. Make Adelaide part of your story.

Accessible

Adelaide offers all the advantages of big city life but is still small enough to get around easily. It takes just 15 minutes to get from the airport to the city and 20 minutes from the city to the beach or hills.

Multicultural

Almost one in four people in South Australia were born overseas with ancestry tracing back to more than 120 countries. Australia also has a democratic system of government and is accepting of different religious beliefs.

Affordable

Adelaide has one of the highest standards of living in the world, yet is one of the least expensive places to live. This means more money to spend on food, accommodation, supplies, travel and entertainment.

**Adelaide is up to
14% more affordable
than other major Australian cities.**

EIU Cost of Living Survey 2019

Adelaide is a global study destination and has been ranked in the top 30 best student cities worldwide by QS. Adelaide is known for education excellence, balanced lifestyle and ability to turn career ambitions into a reality through global industry connections, support of start-ups and leadership in growth areas such as health, engineering, food and wine, creative and high technology, advanced manufacturing, space, minerals and energy.

STUDY EXPERIENCE

World-class degrees

The University of South Australia offers over 200 world-class degrees across a wide range of study areas. In fact, we are the only university in South Australia to offer undergraduate programs in aviation, journalism, illustration and animation, pharmacy, property, physiotherapy, surveying and more. We are also the only university in the state to offer postgraduate programs in cybersecurity, communications, visual effects, and arts and cultural management.

unisa.edu.au/study

Practical learning

Learn in a highly practical environment, with opportunities to complete internships, placements and projects, learning from experts in real-world settings. Build your networks and graduate career-ready with the skills required of tomorrow's professionals.

Top ranking teachers

Be supported by highly qualified academics and teaching professionals. Study a curriculum based on the latest industry knowledge and trends. In fact, we are ranked number two in Australia for teaching quality in the 2019 Times Higher Education Young University Rankings.

Modern facilities

Study in state-of-the-art facilities fitted with the latest technologies. From simulated hospital settings and a financial trading room, to robotics laboratories and TV and sound studios, there are modern, purpose-built learning spaces across all campuses.

Global opportunities

Take part in international field trips, work placements, internships, study tours, short-term programs, volunteer opportunities, conferences or a student exchange during your studies. Get a global perspective and a competitive advantage before you graduate.

Career services

Get the support you need to achieve your career goals. Our dedicated career team offers a range of services, resources and tools to help you plan your future career, prepare for the workplace, connect to industry, find short-term employment and more.

2019 THE World University Rankings

RESEARCH EXCELLENCE

Our research is innovative, inspired by challenges, and connected to both industry and community needs. We offer a range of research degrees including Masters by Research, Doctor of Philosophy (PhD) and a Professional Doctorate. Our research degrees are focused on producing new knowledge, providing solutions to global challenges and preparing candidates for competitive careers.

unisa.edu.au/resdegrees

Iress Trading Room / A state-of-the-art learning facility featuring live market data and financial analysis tools at City West Campus.

Academic insight

“Our graduates are highly sought after and they leave not only with the right skills, but also with a hunger for knowing more about how their profession can better shape the built environment. Personally, this is a very rewarding job. It’s the everyday lightbulb moments and when students make large shifts in their understanding about design that really make my day.”

Andrew Wallace / Program Director: Bachelor of Interior Architecture

Student spotlight

“As part of my studies I completed a number of placements including one at the new Royal Adelaide Hospital in both the emergency and plastic surgery departments. Placements helped me to develop my knowledge and apply it to clinical practice. The University also offered pre-clinical workshops and practice simulations to help us become familiar with the real working environment.”

Winnie Zhao / Bachelor of Nursing

Alumni in focus

Wawira Njiru wanted to make a positive impact in her community back in Kenya. She decided to study a degree in nutrition and food sciences with a vision of doing something big.

During her studies, Wawira hosted a community fundraiser and then used A\$1,680 to build a make-shift kitchen in Ruiru, near Nairobi.

From here, Food 4 Education was born. Wawira started providing 25 healthy meals a day to primary school children in Kenya.

Eight years on, Wawira’s organisation is providing 10,000 meals a day, sourcing produce from local farmers.

“When I came to the University of South Australia, I had a clear goal in mind: to do something to benefit my community in the long term, she says.

“The kids inspire me the most. I am so privileged to have the opportunity to contribute to their future.”

Wawira now dreams about expanding into other areas of the continent and providing millions of meals over the next decade.

*Wawira Njiru / Bachelor of Nutrition and Food Sciences
Founder, Food 4 Education*

Industry connections

Our learning is influenced by industry, and the latest trends and demands.

We collaborate with more than 2,500 companies worldwide to bring our students placement, project, research and work opportunities.

Online learning and support

Our multi-million dollar fully interactive learning environment allows students to submit their assignments online, receive their marked assignments, access learning resources, participate in virtual classrooms and download lecture recordings. It's available 24 hours a day, seven days a week.

Student app

Our mobile app allows all students to view their timetable, check emails, get important notifications, track assessments and see course enrolments and details. You can also find available PCs on campus, book a study room, check your print quota and library loans, and view announcements.

SafeZone app

Students can download this free app, providing additional security and support when studying on campus. The app allows you to get help quickly in a personal emergency. You can check-in when working alone or after hours and the app will share your status with an on-site response team.

SafeZone

Getting started

We are here to help you transition into university. We offer the following services to all new students:

On arrival transport to your accommodation

Advice on living in Adelaide

Orientation to university

Understanding your working rights in Australia

Finding community and government services

Accessing academic policies and procedures

Scholarships

Each year more than 2,500 students benefit from our scholarships and grants, totalling millions of dollars. We have a range of categories including support for high achievers and students in need, along with scholarships specifically for international students.

unisa.edu.au/international-scholarships

AUSTRALIA AWARDS

Australia Awards give the next generation of global leaders an opportunity to complete study, research and professional development in Australia. The University is proud to have hosted hundreds of recipients from all over the world through this prestigious initiative developed by the Australian Government.

australiaawards.gov.au

SPONSORED STUDENTS

A sponsored student is someone who has all or part of their education costs paid by a third party, such as a foreign government, the Australian Government, a partner university or employer. We currently host over 200 sponsored students and have the support services in place to ensure they achieve their best.

Graduate with a top-ranking law degree and professional honours in just four years of study. Develop an advanced understanding of key legal principles, processes and methods. Build strong skills in analysis, reasoning, advocacy, negotiation and communication to resolve complex legal problems. Study fundamental courses and concepts that underpin the Australian legal system including areas such as torts, contracts, criminal law and constitutional law. Tailor your studies through a wide range of electives including health law, sports law, family law and human rights law. Experience practical learning in a moot court and learn what it's like to present before a judge. Engage with our student-run Legal Advice Clinic, working with clients under the supervision of a managing solicitor. Become career-ready with opportunities for international study tours, as well as local and national internships. Participate in a law reform project or conduct high-level law research during your studies. Graduate with a degree accredited by the Legal Practitioners Education and Admission Council (LPEAC).

Note 1: If you wish to seek admission to practise law, you must satisfy a number of specified course requirements within your degree, followed by the completion of Practical Legal Training.

Note 2: Students may enter the Bachelor of Business (Legal Studies) (DBLS) and apply for transfer into the Bachelor of Laws (Honours) program with credit, subject to meeting academic criteria.

Study fundamental courses and concepts that underpin the Australian legal system including areas such as torts, contracts, criminal law and constitutional law. Tailor your studies through a wide range of electives including health law, sports law, family law and human rights law. Build your practical skills in a moot court and learn what it's like to present before a judge. Engage with our student-run Legal Advice Clinic working with clients under the supervision of a managing solicitor. Become career-ready with opportunities for international study tours, as well as local and national internships. Participate in a law reform project or conduct high-level law research during your studies. Combine your law degree with Accounting; Arts; History and Global Politics; Economics, Finance and Trade; Human Resource Management; Journalism and Professional Writing; Marketing; Management; Psychological Science; Sport and Recreation Management; or Tourism and Event Management. Graduate with a law degree accredited by the Legal Practitioners Education and Admission Council (LPEAC).

Note: If you wish to seek admission to practise law, you must satisfy a number of specified course requirements within your degree, followed by the completion of Practical Legal Training.

You can also pair the Bachelor of Laws (Honours) with a wide range of other UniSA disciplines, however eligibility criteria applies.

CAREERS

Depending on your degree combination, your career options can include:

Solicitor / in-house counsel / project manager / tax accountant / court reporter / ministerial adviser / policy adviser / lobbyist / mediator / political commentator / media adviser / arbitrator / political analyst / senior environmental adviser / political reporter / procurement adviser / marketing executive / international relations specialist / foreign policy adviser / diplomat / human rights advocate

Prepare for a career in the private, public or legal sectors. Learn about the foundations of law and the Australian legal system, and develop a strong understanding of the law in everyday business operations. Study fundamental courses covering areas such as management, economics, accounting and entrepreneurship. Combine this with courses in law, public law, torts and contracts. You will also study a range of electives to tailor your degree – four in legal studies and four in business-related courses. Gain valuable practical experience by embedding an internship into your studies and seek career mentoring from legal professionals. Take a direct pathway into the Bachelor of Laws (Honours) or Bachelor of Laws (Honours) Double Degree – academic criteria applies.

Note: This degree does not provide the educational requirements to practise law, however you may have the opportunity to transfer into the Bachelor of Laws (Honours) or Bachelor of Laws (Honours) Double Degree if you meet the eligibility requirements.

Graduate with an internationally-recognised and highly-awarded MBA qualification designed for experienced managers and enterprising leaders. You will explore the latest industry insights and management research, and learn to create new solutions to modern business challenges, lead innovative teams and deliver exceptional business outcomes in the context of disruptive change and global uncertainty. Analyse real case studies and business challenges and draw upon your experiences and workplace-based issues for assessment tasks. Complete a major capstone project in your final year, where you will plan and execute a research project for a company board or senior management group. Engage with a cohort of experienced peers from diverse industry backgrounds in a highly interactive learning environment. Participate in an optional two-week global study experience to China, Europe or Mexico. You can also complete the Company Directors Course as part of this degree through our unique partnership with the Australian Institute of Company Directors. Recognised and respected globally for excellence and outcomes, our MBA has been ranked No.1 Online MBA in Australia and No.6 Online MBA in the world.* It is also ranked in the Top 5 MBAs in Australia^ and has received 5 Stars from the Graduate Management Association of Australia (GMAA) for more than ten consecutive years.

**CEO Magazine 2019 Global MBA Rankings.*

*see pages 91–92 for details

Learn to create innovative and sustainable interiors that have a positive and lasting impact. Gain a solid foundation in the theoretical aspects of interior design along with a strong understanding of industry trends in modern workplace and furniture design. Apply design processes and strategies to a range of interior architecture projects and work directly with professional clients to transform places and spaces. Tailor your studies in final year by pursuing an area of interest such as retail, hospitality or commercial design. Participate in national and international study tours, competitions and exhibitions. Study in purpose-built design and architecture studios on campus, connect with a design mentor and gain practical experience by completing an industry placement. After graduation you will also be eligible for Graduate Membership with the Design Institute of Australia (DIA).

CAREERS

Interior designer / event designer / exhibition coordinator / lighting designer / design consultant / visual merchandiser / stylist / furniture designer / project manager / studio manager / property stylist / freelance designer

Note: This degree does not lead to registration as an architect, nor to use the title 'architect'.

Build a rewarding career in architecture, helping to shape and transform the environment around you. Learn about the theoretical, behavioural, environmental and ethical issues within architectural practice; social and political context in design; traditional drawing methods; computer-based representation; and contemporary design culture. Study in modern, purpose-built facilities including design studios and workshops on campus. Engage in real-life projects through our award-winning Design Construct learning

experience, the longest running and largest practice-based teaching program of its type in Australia. Continue your studies through the Master of Architecture to become a registered architect.

CAREERS

Architect (with further study) / exhibition designer / urban designer / production designer / drafter / studio manager / planning and development officer (with further study) / project manager / heritage consultant

Note: This degree provides the requirements for entry into the Master of Architecture (DMAE). The master's program is accredited by the Architectural Practice Board of South Australia and is listed as an accredited degree by the Architects Accreditation Council of Australia. Graduates must complete a minimum period of work in the industry and the Architectural Practice Examination to be eligible to apply for registration as an architect.

**Some courses will be delivered at Magill Campus depending on your chosen industry-major.*

**see pages 91–92 for details*

Prepare for a career in the growing creative industries. Study a degree designed and delivered in collaboration with leaders in the industry and explore your creativity in an area that interests you most. Design your own degree by choosing from 12 industry majors, each with a unique focus. You can then select either a second major, or two minors from across a range of creative and business disciplines. Engage with industry from day one as you develop your creative practice while gaining professional knowledge and skills. You will also study core courses in business, design and entrepreneurship, providing you with highly practical and transferable skills to give your career a competitive head-start. Take the opportunity to complete an internship or placement, go on an international exchange, work on real-world projects and build a portfolio of work.

You can also choose to study a start-up/entrepreneurship stream in your final year.

Industry Majors:

- Animation and Visual Effects
- Comicbook Creation
- Communication and Media
- Contemporary Art Studies
- Creative Writing and Literature
- Digital Media
- Festivals
- Film and Television
- Games Design and Production
- Performing Arts
- Screen Studies
- Social Media

Secondary Majors:

- Cultural Studies
- Design Studies
- English Language
- Event Management
- Games
- Innovation and Entrepreneurship
- Journalism
- Marketing
- Sports Management
- Tourism Management

CAREERS

Depending on your chosen industry major, your career options can include:

Enter the world of creative media production by studying film, television, visual effects (VFX) and digital media. Learn about the professional production cycle from conceptualisation and screenwriting through to production and post-production. Analyse film and media from around the globe and write about their different contexts. Develop professional knowledge in the production of VFX, computer-generated imagery (CGI) and website development, while understanding different media platforms and the end-user experience. Work on real-world projects and use the latest multimedia software and technologies. Graduate career-ready with your own portfolio of work, showcasing your practical skills. If you are interested in specialising in VFX, you will have the opportunity to apply for a placement with Rising Sun Pictures, studying the third year of your degree at their studio located in the city centre and working alongside world-class VFX artists. Package this degree with a Master of Teaching (Secondary) to become a media arts teacher.

Note: Entry to specialise in visual effects and study your final year at Rising Sun Pictures is competitive.

EDUCATION

Admissions information

ENTRY REQUIREMENTS

In accordance with national teacher education program standards, applicants must also fulfil non-academic entry requirements before their application is deemed complete. Applicants for the Bachelor of Early Childhood Education (Honours) and Bachelor of Primary Education (Honours) are required to submit a 400–600 word (maximum) Teaching Capabilities Statement, which speaks to your motivation to be a teacher.

PLACEMENT REQUIREMENTS

In the lead-up to each professional experience placement you need to ensure that a number of important prerequisites and requirements are completed or satisfied, including:

- A Department of Human Services Working with Children Check;
- Mandatory Child-Safe Environments Training; and
- Meeting required standards in the national Literacy and Numeracy Test for Initial Teacher Education (LANTITE) – to be completed during your studies.

For more information, visit unisa.edu.au/eds-requirements

Graduate with honours in just four years and build a rewarding career as an early childhood teacher. Focus on the learning and development of children from birth to eight years of age. Build foundational

knowledge in education studies, curriculum planning, professional experience and leadership. Complete three courses in one primary specialism (Learning Area) of your choice to meet the national registration requirements (for birth to eight years of age). Learning Areas include Arts, English and Mathematics/Science. Benefit from highly practical learning, with 105 days of field-based placements starting in your first six months of study and the opportunity to complete a placement overseas. Access the Samsung SMARTSchool – a high-tech, state-of-the-art learning space at Magill Campus.

Note: Graduates can apply for teacher registration in South Australia, interstate and some overseas countries. Applicants should note that there are other criteria determining eligibility for registration by the Teachers Registration Board of South Australia and other registration and regulatory authorities.

CAREERS

Kindergarten teacher / preschool teacher / junior primary teacher / early childhood teacher / childcare centre director / early learning consultant / policy adviser / researcher / out of school hours care director / long day care teacher

DEGREE STRUCTURE

FIRST YEAR
Arts Education
Literacy and Numeracy for Learning
Professional Experience 1: Introduction to Educators' Practices (Birth to 3 Years)
Children's Development: Conception to 3 Years
Foundations in Learning and Teaching 1: Learning through Play
Design and Technology Education
Children in Families and Communities
Contemporary Contexts of Early Childhood Education
SECOND YEAR
Studies in English Education 1
Health and Physical Education
Humanities and Social Sciences Education
Primary Specialism 1
Professional Experience 2: Curriculum and Pedagogy
Science and Mathematics Education 1
Teaching and Learning in Aboriginal Education
Foundations in Learning and Teaching 2: Creating Positive Learning Environments
THIRD YEAR
Science and Mathematics Education 2: Birth to 8 Years
Professional Experience 3: Informed Planning (Pre-school)
Reconceptualising Early Childhood Education
Mathematics Education

Prepare for a professional career in human services. Develop the skills to enhance the wellbeing of people who have experienced personal or social difficulties. Focus on key areas such as behavioural and social sciences, human service practice, human service management, and social policy. Learn how behaviour is affected by cultural, environmental, psychological and political factors. Develop the necessary communication skills to work in the field, and explore the political influences in human services and the various ethical and cultural considerations. Learn how to identify the social policies that impact people's lives and the strategic ways to implement change. Gain practical experience through our human services studios on campus and complete supervised placements during your studies. Graduate with a degree recognised by the Australian Community Workers Association and be eligible for full membership.

Note: Students are required to undertake Criminal History Checks through the Department of Human Services (DHS) for working with Children, in the Aged Care Sector and in Disability Services; obtain a SAPOL National Police Record Check; and complete a one-day course on Safe Environments for Children and Young People. Some placements may require students to hold a current driver's licence, Mandatory Basic Life Support (BLS) training, vaccinations, or a recognised First Aid Certificate.

 2 years full-time	 Professionally accredited
 A\$37,700 pa* indicative 2021	IELTS Total 6.5 IELTS Reading 6.0 IELTS Writing 6.0
 February and July intakes	

PROGRAM CODE: **DMAE** | CRICOS CODE: **060208J**

*see pages 93–95 for details

Apply advanced knowledge to contemporary architecture and design practice. Develop an in-depth understanding of construction systems, digital design and communication, sustainable strategies, architectural practice, and the historical and theoretical contexts that shape our built environment. Gain

valuable practical experience through intensive studio classes where you will design for complex projects, and participate in industry placements and international field trips. Learn from highly experienced teachers who are also practising architects and leaders in their field. Tailor your studies by choosing elective courses in areas such as design and construct, sustainable design, urban planning and city design or digital media. Engage in real projects through the Design Construct stream, where you design and build community buildings in remote locations both in Australia and overseas. This program is accredited by the Architectural Practice Board of South Australia and graduates satisfy the academic requirements to apply for registration as an architect following a period of prescribed work experience. Graduates are also eligible for membership with the Australian Institute of Architects.

CAREERS

Architect / spatial designer / urban designer / studio manager / design consultant / heritage consultant / project manager

ENTRY REQUIREMENTS

- Bachelor of Architectural Studies (DBAE) from the University of South Australia, or a bachelor degree in a three-year pre-professional architecture program from a recognised Australian higher education institution, or equivalent qualification.
- Applicants with a bachelor degree in a three-year pre-professional architecture program from a non-Australian higher education institution must also submit a portfolio as part of their application.
- Entry into this program is competitive, based on academic merit and subject to quota. The University may admit other applicants who provide satisfactory evidence of academic achievement, which is recognised as an equivalent qualification to a completed Bachelor of Architectural Studies (DBAE).

DEGREE STRUCTURE

FIRST YEAR
Advanced Architectural Design Studio (Environment) AAD Research Methods Elective
Advanced Architectural Design Studio (Construction) AAD Research Practices Elective
SECOND YEAR
Architectural Design Research Studio (Context) Professional Architectural Practice Elective
Architectural Design Research Studio (Integrated) Contemporary Architectural Practice Elective

Develop a deep understanding of the innovative and changing world of design. Specialise in an area that interests you most, including Communication Design, Contemporary Art, Design and Construct, Industrial Design, Interior Architecture or Sustainable Design. Access modern, purpose-built workshops on campus featuring industry-standard technologies and digital equipment. Gain practical experience by working on real design projects and challenges. You will also benefit from industry masterclasses and will learn from national and international design practitioners.

ENTRY REQUIREMENTS

- Bachelor degree from a recognised higher education institution or equivalent qualification in a related discipline along with a portfolio of work, curriculum vitae and written statement of intent.
- Applicants who have completed a Graduate Diploma in Design (DGSP) from the University of South Australia are eligible to enter and are not required to submit a portfolio of work or statement of intent.
- Some applicants may be eligible for Advanced Standing and can complete the program in one year or 1.5 years of full-time study.

Master of Design (Communication Design)

PROGRAM CODE: **DMSP** | CRICOS CODE: **082771M**

**see pages 93–95 for details*

Develop a deep understanding of the innovative, changing world of communication design across both print and digital platforms. Be prepared to conceptualise solutions for complex design challenges, and apply advanced principles and practices that extend

beyond the visual to help communicate to different audiences. Learn the design skills required to work across a variety of disciplines including advertising, branding, merchandising, visual communications, publications and web design. Gain valuable professional experience by working on real creative projects, including writing proposals and presenting to clients. Tailor your studies through a range of electives including an industry internship or courses in areas such as brand management, e-marketing, entrepreneurial commercialisation, sustainable design and marketing management. Graduates are also eligible for Graduate Membership with the Design Institute of Australia.

*see pages 93–95 for details

Study a one-of-a-kind qualification unique to Australia, and develop the technical knowledge and skills to transition straight into your film and television career through a 12-week intensive qualification. Offered in association with Matchbox Pictures – one of Australia's most successful and award-winning production companies – you will learn in an immersive, real-world business environment with exclusive access to industry. Benefit

from working alongside highly skilled production professionals using the latest industry-standard tools and technologies. You will complete studies focused on understanding the screen industry, exploring the role of creative producer, idea generation, pitching and financing, pre-production and post-production, and marketing. You will also gain practical experience by working directly on an industry project and will graduate with a professional portfolio of work.

CAREERS

Film editor / location manager / TV producer / screenwriter / cinematographer / production designer / video editor / TV director / talent agent / content producer / videographer

ENTRY REQUIREMENTS

- Bachelor degree from a recognised higher education institution in film, television or a related discipline; or
- Advanced Diploma in Screen and Media or equivalent qualification from an accredited Registered Training Organisation.
- Applicants are also required to submit a showreel of their own work and a curriculum vitae outlining their relevant experience.
- Alternatively, applications will be considered from graduates holding a completed bachelor degree from a recognised higher education institution in an unrelated field who are able to demonstrate substantial experience in film and/or television, in their showreel and curriculum vitae submissions.

EDUCATION

Admissions information

ENTRY REQUIREMENTS

In accordance with national teacher education program standards, applicants must also fulfil non-academic entry requirements before their application is deemed complete. Applicants for the Master of Teaching programs are required to submit a 400–600 word (maximum) Teaching Capabilities Statement, which speaks to your motivation to be a teacher.

PLACEMENT REQUIREMENTS

In the lead-up to each professional experience placement you need to ensure that a number of important prerequisites and requirements are completed or satisfied, including:

- A Department of Human Services Working with Children Check;
- Mandatory Child-Safe Environments Training; and
- Meeting required standards in the national Literacy and Numeracy Test for Initial Teacher Education (LANTITE) – to be completed during your studies.

Admissions information

NATIONAL POLICE CERTIFICATE AND DEPARTMENT OF HUMAN SERVICES WORKING WITH CHILDREN CHECK

All students who, as part of their program, undertake activities where interaction with patients/the public is required, such as in field or clinical placements/visits and in University clinics and gyms, must demonstrate that they have a current National Police Certificate (NPC) through SAPOL (or their home state police service) and a current Department of Human Services (DHS) Working with Children Check, which is valid for the duration of the program. The National Police Check will list disclosable court outcomes that may prevent clinical placement involvement. The University has a process for reviewing these outcomes to assess suitability for placement.

STUDENT REGISTRATION

All students enrolled in a program leading to professional registration must be registered with the relevant national board. The registration process is undertaken by the Australian Health Practitioner Regulation Agency (AHPRA) with the University providing notification to AHPRA following a student's enrolment. No fees apply.

IMMUNISATION REQUIREMENTS

In order to progress to clinical placement you must be screened and provide evidence of your immunisation status. Immunisation is a mandatory requirement across all healthcare placement providers. Non-compliance with the Health Care Workers Immunisation Policy Directive will prevent you from progressing to a placement. Additional requirements may apply. For more information, visit unisa.edu.au/health/cpu

Graduate with honours and become a registered physiotherapist in just four years. Develop the capability to assess, treat and prevent human movement disorders, enabling people to lead healthy and functional lives, as a first contact professional and valued member of an allied healthcare team. Focus on various areas of practice and treatments across sports, musculoskeletal, cardiorespiratory and neurological conditions. Study courses in human anatomy, human physiology, physiotherapy studies, pharmacology, exercise physiology, and pain sciences. Learn practical skills through clinical placements in real-world settings, including our on-campus physiotherapy clinics. Complete either a research stream focusing on an independent research project, or a professional stream where you will take part in a group project addressing a real-world problem. Graduate with a degree accredited by the Australian Physiotherapy Council and satisfy the academic requirements for registration as a Physiotherapist with the Physiotherapy Board of Australia. You will also be eligible for membership with the Australian Physiotherapy Association.

CAREERS

Registered physiotherapists can work in a variety of settings, including:

Private practice / clinics / sporting clubs / exercise services / rehabilitation centres / hospitals / home and community services / disability services / aged care facilities / women's health / paediatric services

DEGREE STRUCTURE

Study South Australia's only degree in podiatry. Prepare for a career as a registered podiatrist, responsible for

diagnosing and treating disorders of the foot, ankle and lower leg. Learn to provide quality care for sports injuries, orthotics, children, and foot and heel pain. Develop fundamental knowledge through core courses in human anatomy, human physiology, pain management, pharmacology and biomechanics and learn relevant aspects of medicine and surgery. Gain valuable real-world experience by completing 1,000 clinical placement hours. Further develop your knowledge and expertise in our on-campus podiatry clinics under the supervision of practising clinicians, as well as our Manufacturing Lab where you will learn how to make orthotics. Graduate with the eligibility to apply for registration as a Podiatrist with the Podiatry Board of Australia.

Note: High achieving students may be considered for the Bachelor of Podiatry (Honours) program in their third year of study.

CAREERS

Registered podiatrists can work in a variety of settings, including:

Private practice / clinics / hospitals / community health centres / aged care / sports clinics / occupational health services

Develop your understanding of the impact that exercise and physical activity has on people – biologically, psychologically and socially. Tailor your degree to your interests and career goals through primary streams in Health and Physical Education or Exercise and Sport Science with the ability to choose a secondary study stream in Rehabilitation Sciences, Sports Coaching, Outdoor Education, Health Promotion, Nutrition or Advanced Exercise and Sport Science. Build strong foundational knowledge in core areas such as human anatomy and physiology; the sociology of health and physical activity; growth and motor development; and group and team psychology. Broaden your knowledge through studies in nutrition, exercise physiology, biomechanics, and motor learning. Graduate with the skills to complete client screenings, conduct laboratory and field testing, design and implement exercise and training programs, and interpret scientific research. Learn in state-of-the-art facilities such as the High Performance and Exercise Physiology Clinic, Environmental Chamber, and fully-equipped Health and Fitness Centre located on campus. Complete an industry placement during your studies. Package this degree with a Master of Teaching (Secondary) to become a health and physical education teacher.

CAREERS

Depending on your course selection, your career options can include:

Sport development officer / community and allied health worker / health and wellbeing advisor / sports coach / outdoor education instructor / recreation activities coordinator / teacher (with further study)

To learn more about how to become a teacher, visit unisa.edu.au/become-a-teacher

Launch a career in the growing food and nutrition industry. Learn to develop innovative foods; promote and manage diets and lifestyles; and conduct meaningful research for enhanced wellbeing. Explore

the fundamentals of both nutrition and food sciences in your first two years of study then select one as a formal study stream in your third year, that aligns to your interests and career goals. Develop a strong body of knowledge in biology, food chemistry, microbiology, physiology and consumer education. Study in a dedicated learning hub on campus, including a purpose-built Sensory Lab, Microbiology Lab and Commercial Kitchen. Benefit from our strong links with the food industry and community, and attend field trips to some of South Australia's major nutrition and food providers. Graduates are eligible to apply for professional membership with the Australian Institute of Food Science and Technology (AIFST). Graduates are also eligible to apply to the Nutrition Society of Australia for registration as an Associate Nutritionist (ANutr), leading to Registered Nutritionist (RNutr), typically after three years of work experience.

Study the only degree of its kind in South Australia. Develop the skills to work in areas such as drug discovery, manufacturing and production, clinical trials, regulatory affairs, and pharmaceutical sales and marketing.

Build your understanding of fundamental sciences and the factors influencing the global pharmaceutical industry. You will then focus specifically on key areas such as pharmaceutical sciences, pharmacology and pharmacokinetics, drug discovery, development, and commercialisation. You can also choose from a range of specialist courses to tailor your studies, covering areas such as research and development, manufacturing and pharmaceutical chemistry, and drug development and business (including sales, marketing, legal, regulatory and drug information). Access purpose-built laboratories on campus and in the A\$247 million UniSA Cancer Research Institute. Complete an industry project or placement during your degree. Be eligible for membership with the Royal Australian Chemical Institute (RACI) and other relevant professional bodies such as AusBiotech. Explore the option of a double degree with the Bachelor of Pharmacy (Honours) – *academic criteria applies*.

CAREERS

Pharmaceutical science professionals can work in a variety of areas, including medicine manufacturing, evaluation, sales, marketing and quality control, along with clinical trials and research and development.

Study South Australia's only degree in pharmacy. Become a Registered Pharmacist, equipped to prepare, supply and monitor medicines across a variety of settings. Study a degree accredited by the Australian Pharmacy Council and benefit from a university with over 50 years' experience in delivering pharmacy education. Focus on key study areas such as biological, chemical and pharmaceutical sciences; ethical pharmacy practice; trialling and regulation of medicines; drug information and advice; preparing, studying and monitoring medicines and their use; and pharmaceutical research methods. Access state-of-the-art learning spaces, including the pharmacy practice suite where you will learn to dispense medicines and counsel patients, along with purpose-built laboratories in the A\$247 million UniSA Cancer Research Institute. Complete field placements in community and hospital-based pharmacy settings. Following graduation, you will satisfy the academic requirements for registration as a Pharmacist with the Pharmacy Board of Australia (PBA), which is also determined by a period of supervised training. Enhance your career by exploring the option of a double degree with the Bachelor of Pharmaceutical Science – *academic criteria applies*.

Graduate with honours in just four years and prepare for a career as a medical laboratory scientist focusing on diagnostic pathology or research. Learn to play a vital role in the welfare of patients by supporting clinicians in the diagnosis, management and treatment of disease, conducting research into causes and cures of disease, and developing improved methods for disease detection. Build fundamental

knowledge in biochemistry, microbiology, immunology, molecular pathology, haematology and histopathology. Develop the skills to perform a range of diagnostic tests including cross-matching for blood transfusions; identifying the organisms that cause infections and food poisoning; screening for cancer cells; and detecting genes responsible for disease. Gain valuable practical experience in our on-campus laboratories and through field placements across areas of public and private pathology. As part of your honours, you can tailor your studies in either a diagnostic or research setting, learning how to manage specimens, perform tests and operate equipment. Graduate with a degree accredited by the Australian Institute of Medical Scientists (AIMS) and be eligible for membership. You can also apply for membership with the Australasian Association of Clinical Biochemists (AACB) and Australian Society for Microbiology (ASM).

CAREERS

Medical laboratory scientists can work in a wide range of areas, including:

*see pages 91–92 for details

Study South Australia's only medical radiation science degree and choose to specialise in Medical Imaging, Nuclear Medicine or Radiation Therapy. Focus on core courses in anatomy, physiology, pathology and radiation physics before completing specialised courses in your chosen area. Complete over 1,750 clinical placement hours, which begin in your second year of study. Take part in regular pre-clinical preparation workshops in your final year to further extend your skills as you move into advanced areas of practice and hear from clinical specialists who will teach you about current technologies and practices throughout your studies. After graduation, you will be eligible to apply for general registration with the Medical Radiation Practice Board of Australia (MRPBA).

Note: High achieving students may be considered for the Bachelor of Medical Radiation Science (Honours) program in third year.

Bachelor of Medical Radiation Science (Medical Imaging)

PROGRAM CODE: **IBRS** | CRICOS CODE: **088578G**

*see pages 91–92 for details

Graduate as a qualified diagnostic radiographer. Learn how to produce high quality medical images with various technologies and types of radiation to monitor and diagnose injury and illness. Be prepared to work across general radiography practice such as X-rays, fluoroscopy, theatre or emergency imaging. Practise in fully functioning X-ray suites located on campus, equipped with the latest tools and technologies.

CAREERS

Medical imaging professionals can work in a variety of settings, including hospitals, private practice, defence and research and development. You may also gain employment in specialist areas such as ultrasound, interventional imaging, magnetic resonance imaging and computed tomography.

*see pages 93–95 for details

Designed for students who have completed a health-related bachelor's degree, this program will provide you with the requirements to practise as a registered occupational therapist in just two extra years of study. Learn how to assist people in managing constraints caused by injury or illness, as well as emotional, developmental, environmental, societal, age-related and psychological limitations. Benefit from highly practical learning with over 1,000 placement hours. Develop strong foundational knowledge in occupational science, occupational therapy practice and human neuroscience, along with critical communication and problem-solving skills. Graduate with a qualification accredited by the Occupational Therapy Council (Australia & New Zealand). The program is also approved by the World Federation of Occupational Therapists and the Occupational Therapy Board of Australia for professional registration as an Occupational Therapist in Australia.

CAREERS

Occupational therapists can work in a variety of settings, including hospitals, private practice, community health services, rehabilitation centres, aged care facilities, community services, home care, local councils, government departments and schools.

ENTRY REQUIREMENTS

- Bachelor degree or higher from a recognised higher education institution completed in the last ten years with a minimum Grade Point Average (GPA) of 5 or international equivalent score.
- Applicants must also have successfully completed set prerequisite courses. For more information, visit unisa.edu.au/occupational-therapy

Degrees:

- Master of Advanced Clinical Physiotherapy (Musculoskeletal)
- Master of Advanced Clinical Physiotherapy (Sports)

unisa.edu.au/physiotherapy

Nested with: Graduate Certificate in Advanced Clinical Musculoskeletal and Sports Physiotherapy (ICMS)

 City East Campus	 Internship/ placement
 1 year full-time	 Professionally accredited
 A\$39,700 pa* indicative 2021	IELTS Total 7.0 IELTS Reading 7.0 IELTS Writing 7.0 IELTS Listening 7.0 IELTS Speaking 7.0
 July intake	

PROGRAM CODE: **IMAP** | CRICOS CODE: **VARIES**

**see pages 93–95 for details*

Further your knowledge and expertise in clinical practice and choose a specialised stream in either Musculoskeletal or Sports physiotherapy. Complete supervised placements in an environment tailored to your needs and be mentored by advanced clinicians in your specific area of interest. You can also engage with patients in our physiotherapy clinics located on campus. Benefit from a university with over 40 years' experience in physiotherapy education.

ENTRY REQUIREMENTS

- Bachelor degree or equivalent entry level qualification in physiotherapy from a recognised higher education institution; and
- Minimum 10 months full-time, or equivalent, physiotherapy practice in a relevant field following completion of the professional entry level qualification; and
- Fulfilled the requirements for eligibility for registration as a physiotherapist or limited registration under supervision with the Australian Health Practitioner Registering Authority. Students must apply for limited registration after acceptance into the program.

Master of Advanced Clinical Physiotherapy (Musculoskeletal)

PROGRAM CODE: **IMAP** | CRICOS CODE: **088576K**

**see pages 93–95 for details*

Further your expertise in musculoskeletal physiotherapy. Gain advanced knowledge in clinical reasoning, communication, physical and psychosocial examination, as well as education and procedural management. Learn through a balance of theoretical and practical classes. Take core courses in allied health evidence translation; facilitating change in cognitive behaviours and lifestyle; pain science, assessment and management; and advanced musculoskeletal examination and management. Graduate with a qualification accredited by the Australian Physiotherapy Association and Musculoskeletal Physiotherapy Australia. You will also be eligible for Titled Membership with Sports Physiotherapy Australia.

CAREERS

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as private practice, clinics, rehabilitation centres, hospitals, home and community services, disability services, aged care facilities and research.

DEGREE STRUCTURE

MUSCULOSKELETAL SPECIALISATION
FIRST YEAR
Allied Health Research Evidence Translation Musculoskeletal Physiotherapy Theory and Practice 1 Musculoskeletal Physiotherapy Theory and Practice 2 Pain Theory and Science
Pain Assessment, Rehabilitation and Management Exercise and Conditioning Advanced Physiotherapy Practice 1 Advanced Physiotherapy Practice Musculoskeletal

Master of Advanced Clinical Physiotherapy (Sports)

PROGRAM CODE: **IMAP** | CRICOS CODE: **088577J**

**see pages 93–95 for details*

Study an advanced qualification in sports physiotherapy. Enhance your knowledge, clinical skills and application of evidence-based practice in the treatment of sporting and other injuries sustained in field and outpatient settings. Develop quick decision-making skills to triage injuries during events and to perform pre-season screening, as well as understanding how to develop injury prevention strategies for teams and individuals. Take core courses in musculoskeletal physiotherapy, pain theory and science, and advanced physiotherapy sports theory and management. Graduate with a qualification accredited by the Sports Professional Practice Standards Committee of the Australian Physiotherapy Association.

You will also be eligible for Titled Membership with Sports Physiotherapy Australia.

CAREERS

This program is designed for qualified physiotherapists seeking to further their qualifications and can lead to careers in settings such as elite sports, amateur sports, national and international sports, clinics, hospitals, private practice, disability services, rehabilitation centres and research.

DEGREE STRUCTURE

SPORTS SPECIALISATION
FIRST YEAR
Allied Health Research Evidence Translation Musculoskeletal Physiotherapy Theory and Practice 1 Musculoskeletal Physiotherapy Theory and Practice 2 Pain Theory and Science
Advanced Physiotherapy Sports Theory Exercise and Conditioning Advanced Physiotherapy Practice 1 Advanced Physiotherapy Practice Sports

HEALTH SERVICES

Master of Health Services Management

unisa.edu.au/health-science

 City East Campus	 Real-world projects
 2 years full-time	IELTS Total 6.5 IELTS Writing 6.5 IELTS Speaking 6.5
 A\$29,400 pa* indicative 2021	
 February and July intakes	

PROGRAM CODE: **IMHM** | CRICOS CODE: **096783C**

**see pages 93–95 for details*

Graduate with a postgraduate qualification that will prepare you for a wide variety of leadership and management positions across the healthcare and ageing sectors. Study a unique blend of health and business related courses with a contemporary health management focus. Develop critical skills in management, administration, leadership, communication, project management and financial management. Build your knowledge in providing overall strategic direction and management to services and organisations; develop competencies in designing rigorous quantitative research to inform healthcare knowledge, practice, and policy; prepare to work in senior levels of management influencing high-level organisation, financial and administrative decisions; and control administrative operations such as reporting and budget planning. You may also partner with industry and complete a major project targeting a real-world health management issue. Benefit from a curriculum influenced by world-class business and management research.

CAREERS

Clinical manager / practice manager / aged care manager / health and welfare services manager / medical administrator / hospital administrator / primary health organisation manager

ENTRY REQUIREMENTS

Bachelor degree from a recognised higher education institution. Some applicants may be eligible for Advanced Standing and can complete the program in 1.5 years full-time study.

DEGREE STRUCTURE

FIRST YEAR
People, Leadership and Performance
Responsible Leadership in Health
Quantitative Design for Nursing, Midwifery and Health Research
Workplace Health and Safety Management
Workplace Learning and Development
Project Management for Business
Managing Change
Financial and Economic Management for Health and Aged Care
SECOND YEAR
Service Management
Business Analytics and the Data-driven Organisation
Business Ethics
Strategy for Health and Aged Care Managers
Performance Review and Health Economics
Health Ethics
Capstone in Health Services Management

MEDICAL SONOGRAPHY

Master of Medical Sonography

Degrees:

- Master of Medical Sonography (General)
- Master of Medical Sonography (Cardiac)
- Master of Medical Sonography (Vascular)

unisa.edu.au/medical-radiation

Nested with: Graduate Diploma in Medical Sonography (General) (IGSO), Graduate Diploma in Medical Sonography (Cardiac) (IGSO), Graduate Diploma in Medical Sonography (Vascular) (IGSO)

 City East Campus	 Internship/ placement
 1.5 years full-time	 Professionally recognised
 A\$31,900 pa* indicative 2021	IELTS Total 7.0
 February and July intakes	IELTS Reading 7.0
	IELTS Writing 7.0
	IELTS Listening 7.0
	IELTS Speaking 7.0

PROGRAM CODE: **IMSO** | CRICOS CODE: **n/a**

*see pages 93–95 for details

IMPORTANT NOTE

These programs are not available to international student visa holders and are only available part-time and through online delivery. Theory examinations can be completed at external exam centres; however all students are required to attend clinical assessments on campus. Applicants are also responsible for organising their own training position in an ultrasound department in order to complete the required scanning experience.

Designed for qualified allied health professionals, these part-time programs will extend your knowledge and practical skills in ultrasound imaging. Choose a broad qualification or specialise in either cardiac or vascular sonography. Study a combination of theory and practice where you will gain advanced technical skills and a strong understanding of key areas such as health science, physics, anatomy and pathology. In the Cardiac specialisation, you will focus on the cardiovascular system including cardiac pressures and congenital heart disease. In the Vascular specialisation, you will explore the circulatory system for signs of disease or obstruction. Complete more than 2,000 practical hours of supervised imaging and clinical assessments and pursue a clinical project or research pathway in your final year. Benefit from flexible learning with online study options and on-campus workshops. Graduates will be eligible to apply for registration with the Australian Sonographer Accreditation Registry (ASAR) as an accredited sonographer.

CAREERS

Accredited medical sonographers can work in a variety of settings, including hospitals, private practice, clinics, laboratories and research.

ALL SPECIALISATIONS

- A bachelor degree in medical radiation science or allied health or health science, or equivalent qualification with a minimum Grade Point Average (GPA) of 5 or international equivalent; or
- A relevant graduate diploma in medical/cardiac/vascular sonography or equivalent qualification with a minimum GPA of 5 or international equivalent; or
- Relevant accreditation as a medical/cardiac/vascular sonographer with five years of accredited experience; or
- Relevant accreditation as a medical/cardiac/vascular sonographer with two years' experience where accreditation was awarded following completion of a recognised bachelor degree.

IN ADDITION, FOR THE GENERAL SPECIALISATION:

- Successful completion of prerequisite courses within the last ten years from a recognised higher education institution.

DEGREE STRUCTURE

EXAMPLE: GENERAL SPECIALISATION
LEVEL ONE
Ultrasound Physics and Instrumentation
Professional Issues for Sonographers
Abdominal Sonography
Superficial Parts Sonography
LEVEL TWO
Obstetric and Gynaecologic Sonography
Vascular Sonography
Musculoskeletal Sonography
Clinical Sonography Portfolio
LEVEL THREE (RESEARCH PATHWAY)
Qualitative Design for Nursing, Midwifery and Health Research OR Quantitative Design for Nursing, Midwifery and Health Research
AND
Minor Thesis 1
Health Science Minor Thesis 2

LEVEL THREE (PROJECT PATHWAY)

Minor Thesis 1 OR Allied Health Research Evidence Translation

Plus 13.5 Units of electives chosen from the following:

- Fetal Echocardiography
- Advanced Musculoskeletal Sonography
- Advanced Vascular Sonography
- Health Ethics
- Research for Advancing Nursing, Midwifery and Health Care
- Health Science Advanced Skill Project
- Health Science Advanced or Extended Practice Report
- Breast Sonography
- Managing Employee Performance and Rewards
- Advanced Obstetric and Gynaecologic Sonography
- Qualitative Design for Nursing, Midwifery and Health Research
- Quantitative Design for Nursing, Midwifery and Health Research

WE ALSO OFFER

Master of Physiotherapy (Graduate Entry)

Masters by Research

Doctor of Philosophy (PhD)

Master of Clinical Pharmacy[^]

[^]This program is not available to onshore student visa holders.

IT, ENGINEERING AND THE ENVIRONMENT

Be at the forefront of innovation and technology. Join a vibrant hub of forward-thinking students, academics and researchers, working to unlock new possibilities in the communication and information technology, engineering, science, defence and aerospace industries. Collaborate with industry through real-world projects and fieldwork to provide solutions that have a positive impact on end-users. Study near Technology Park in Adelaide's northern suburbs – a nexus of more than 100 high-tech companies with opportunities for knowledge sharing, product development, research and professional networking.

	IELTS Writing 6.0
	✓ SAIBT pathway

PROGRAM CODE: **LBAF** | CRICOS CODE: **095900M**

*see pages 91–92 for details

Take the first steps towards becoming a pilot and build a career that will allow you to travel the world. Study at a university that teaches theory and practice at the same time, with 15–20 hours of real flight training experience provided in the first year of your degree. You will also have the option to separately study for your Commercial Pilot Licence, which you can do concurrently with your university studies (subject to specific entry requirements). Develop fundamental knowledge in aerodynamics, meteorology, navigation, flight planning, and aircraft power plants and systems. Access state-of-the-art technologies on campus, including a CASA-certified Boeing 737 Next Generation flight simulator. You will also gain real-world experience through our connection with the Civil Aviation Safety Authority (CASA) by submitting flight plans and accessing the latest aerodrome alerts.

Note: For the flight training component of this degree, you must obtain a minimum of a Class II Medical with at least six months validity. You must also remain compliant with the Aviation Academy's Drug and Alcohol Management Plan (DAMP).

Following additional flight training, this degree can lead to the following careers:

Commercial pilot / corporate pilot / firefighting pilot / medical and air ambulance pilot / defence force pilot / flight instructor

DEGREE STRUCTURE

FIRST YEAR
Flight Training Theory 1 Professional and Technical Communication Introduction to Aviation Aviation Practice
Commercial Pilot Theory Flight Experience

SECOND YEAR
Communications and Research Methods Aviation Physics 1N Aviation Law University Elective
Introduction to Aviation Management Introduction to Aviation Safety Elective
THIRD YEAR
Airline Transport Pilot Theory 1 Risk and Safety Management Systems Elective
Airline Transport Pilot Theory 2 Large Aircraft Flight Operations Aviation Project Airline Operations Management

Bachelor of Aviation (Management)

unisa.edu.au/aviation

 Mawson Lakes Campus	 Real-world projects
 3 years full-time	Selection Rank 70
 A\$36,600 pa* indicative 2021	IELTS Total 6.0

	IELTS Writing 6.0
	✓ SAIBT pathway

PROGRAM CODE: **LBAN** | CRICOS CODE: **088879F**

*see pages 91–92 for details

Develop a global career in aviation management. Build your knowledge in complex airport and flight operations. Focus on key areas such as aviation law, airline finance, operations management, economics and marketing, safety and human factors, and professional and technical communication. Learn about air operations dispatch, airport management, computer-controlled flight management systems, crew resource management, flight operation technologies, flight planning and traffic control. Access our state-of-the-art flight simulators to build your understanding of pilot operations and different flying conditions. Benefit from close links to industry with coursework and materials aligned directly to industry needs and international best practice. Complete an aviation project in your final year, which focuses on a real-world challenge and showcases your knowledge along with critical analytical, research and presentation skills.

CAREERS

Airport services manager / airport operations manager / air traffic controller / commercial manager / human resources manager / logistics manager / marketing and business development manager / maintenance and safety specialist

DEGREE STRUCTURE

FIRST YEAR
Management and Organisation Professional and Technical Communication Introduction to Aviation Aviation Practice
Quantitative Methods for Business Introduction to Aviation Management Introduction to Aviation Safety Human Factors 1
SECOND YEAR

PROGRAM CODE: **IHCN** | CRICOS CODE: **099379B**

*see pages 91–92 for details

Study South Australia's only honours degree combining construction management, quantity surveying and building surveying. Learn about the fundamentals of construction including building technology and building structures. Develop your knowledge in contract administration, development regulation and development economics. Tailor your studies by choosing to focus on two key specialisation areas in your final year, including Quantity Surveying, Building Surveying or Construction Management. Graduate career ready by completing the Professional Practice Program as part of your degree. Gain at least 450 hours of skills and competencies through a range of engagement activities such as placements, internships, guest lectures, industry panels, site visits, networking and events.

Graduate with a degree that is accredited by the Australian Institute of Building and be eligible to apply for corporate membership. You will also be able to apply for membership with the Royal Institute of Chartered Surveyors (UK). Students who have completed the final year specialisation in Quantity Surveying will also be eligible to apply for corporate membership with the Australian Institute of Quantity Surveyors.

CAREERS

Construction manager / capital works manager / operations manager / quantity surveyor / building surveyor / project manager / site supervisor / estimator / construction planner / contract administrator / bid manager

PROGRAM CODE: **LBCP** | CRICOS CODE: **VARIES**

**see pages 91–92 for details*

Build a dynamic career as an IT professional. Study core courses that will give you a solid foundation in IT, network, database and programming fundamentals, and systems analysis. Study a general IT degree or choose the specialisation that interests you most. Learn with the latest industry-standard technologies and tools in the IT Development Studio and IT Innovation Studio located on campus. Gain valuable practical experience through industry placements and internships, and collaborate with a real client on a final year ICT project. Graduate with a degree accredited by the Australian Computer Society.

Bachelor of Information Technology

PROGRAM CODE: **LBCP** | CRICOS CODE: **024199D**

**see pages 91–92 for details*

Study a general degree that will provide you with the fundamentals needed for a modern IT professional. Tailor your studies by choosing from a wide range of minors. You can select two IT minors from areas such as 3D Animation, Business Systems, Data Analytics, Games, Mobile Applications, Multimedia, Networking, Security, Software Development, or Visual Effects. You also have the choice of selecting one minor from a different discipline, such as Accounting, Digital

Media, Innovation and Entrepreneurship, International Business, Marketing, or Management. Enjoy the flexibility of having the option to transfer into a specialised IT degree and receive study credit for successfully completed courses.

CAREERS

Software developer / networking analyst / web developer / IT consultant / database developer / IT manager / systems analyst / computer programmer / user interface developer

DEGREE STRUCTURE

FIRST YEAR
Information Technology Fundamentals
Problem Solving and Programming
Network Fundamentals
Design Thinking Studio
Object Oriented Programming
Data Driven Web Technologies
System Requirements and User Experience
System Requirements Studio
SECOND YEAR
Interface Design, Interaction and Experience
Web Development
Service Management and Integration

Bachelor of Information Technology (Games and Entertainment Design)

PROGRAM CODE: **LBCP** | CRICOS CODE: **067898K**

**see pages 91–92 for details*

Learn to develop new and exciting applications for different industries and markets. Apply technical skills and creativity to game-type productions, software and interfaces. Study core courses that will give you a solid foundation in IT, network, database and programming fundamentals, and systems analysis. You will then complete highly specialised courses focusing on computer graphics programming, multimedia design and information visualisation. Explore interface design, interaction and experience; tools for software development; game asset creation; computer game design concepts; mobile game development; and artificial intelligence.

CAREERS

Game designer / Android and iOS developer / mobile games developer / video game designer / video game system designer / game programmer / web developer / multimedia specialist

DEGREE STRUCTURE

GAMES AND ENTERTAINMENT SPECIALISATION
FIRST YEAR
Information Technology Fundamentals
Problem Solving and Programming
Network Fundamentals
Design Thinking Studio
Object Oriented Programming
Data Driven Web Technologies
System Requirements and User Experience

Bachelor of Information Technology (Networking and Cybersecurity)

PROGRAM CODE: **LBCP** | CRICOS CODE: **067899J**

**see pages 91–92 for details*

Focus on the security of information in contemporary IT systems. Be at the forefront of security intelligence, finding new ways to combat escalating cyber-attacks and defending against spamming, malware, viruses and other threats. Develop the skills to support a network roll-out and infrastructure maintenance, as well as knowledge in networking topologies, routers and firewalls. Complete specialist courses including Digital Forensics; Cloud, Virtualisation and Storage; Information Security Management; and Network Security. The core networking courses will also prepare you to sit industry certification exams and will also help you build essential skills in CCNA, CISCO and CCNP.

CAREERS

Cybersecurity analyst / network administrator / network engineer / cybersecurity consultant / cybersecurity governance manager / policy adviser / IT service delivery manager

DEGREE STRUCTURE

NETWORKING AND CYBERSECURITY SPECIALISATION
FIRST YEAR
Information Technology Fundamentals
Problem Solving and Programming
Network Fundamentals

Go beyond traditional programming and develop specialist skills in software engineering. Study core courses to build your base knowledge in IT, network, database and programming fundamentals, and systems analysis. You will then explore advanced concepts and research methods in computer science including systems development, database and knowledge management, health informatics, networking and security. Learn to develop large, complex systems and focus on key areas such as tools for software development, software development with C++, agile development with .NET, concurrent programming, artificial intelligence, and cloud programming. You will also develop the cognitive skills needed for critical thinking, and the ability to understand and analyse the technical and design elements of software engineering. Complete a major specialist project focusing on a real-world IT issue, along with three software engineering minors in your final honours year. Learn with the latest industry-standard technologies and tools in the IT Development Studio and IT Innovation Studio located on campus. Graduate with a degree accredited by the Australian Computer Society.

Unravel the mysteries of the natural and physical world. Build your career as a scientist, making predictions and informed decisions through the systematic study of the nature and behaviour of the physical universe. Study the fundamentals of science through observation, experiment and measurement. Tailor your degree by choosing two majors that align with your interests and career goals, including Applied Physics, Biology, Chemistry, Ecosystem Sciences, or Mathematics. Gain practical experience through laboratory and field work. Access state-of-the-art facilities and engage with researchers at the multi-million dollar Future Industries Institute on campus. Continue your studies with the Master of Teaching (Secondary) to become a science teacher.

Note: Students interested in taking a major in another area of science can discuss their options with the University after enrolment.

CAREERS

This degree can lead to careers in a variety of areas, including:

Research laboratories / medical and pharmaceutical industries / manufacturing / environmental management / food development / mining and energy / information technology / defence science / meteorology / teaching (with further study)

*see pages 91–92 for details

Build a career in environmental sustainability, exploring how humans interact with the environment and how we can best manage it. Study core courses in biology, soil science, ecology, conservation, geology and social sciences. Complete in-depth examinations in biological and earth sciences. Develop essential skills working with Geospatial Information Systems (GIS) to capture, analyse and manage spatial and geographic data. Choose a major study area to tailor your degree, including Ecology and Conservation, or Earth Science and Environmental Chemistry. Learn in a state-of-the-art immersive virtual environment on campus using *Project LIVE* visualisation technology, which transforms traditional classroom activities into interactive learning. Access cutting-edge digital imagery of local environments and the tools to process data and evaluate its meaning. Through this technology you will become familiar with the latest digital imaging, mapping and spatial analysis techniques. Gain additional practical experience through hands-on field work and real-world projects. Continue your studies through the Master of Teaching (Secondary) to teach science up to Year 10 and Environmental Science to Year 12.

CAREERS

Environmental adviser / land management officer / sustainability officer / environmental consultant / ecologist / environmental scientist / environmental project officer / environmental strategy manager / environmental researcher / teacher (with further study)

Prepare for a career in the growing field of data science where skilled professionals are in high demand. Discover ways to analyse and interpret vast amounts of data to provide intelligent business insights. Learn to solve complex problems through quantifying and understanding data. Study a balanced mix of courses in mathematics, information technology and data science. In first year, you will focus on building your mathematical and programming skills with courses in calculus, statistical methods, fundamentals of programming, and databases. You will then move into applied data science studies through cross-disciplinary areas such as web development, data structures, mathematical communication and mathematical modelling. In final year, you will develop skills in programming and networking, project management and analytics. Gain hands-on experience through a major ICT project working on a real-world challenge and strengthen your abilities in research, analysis and interpretation of data. Continue your studies with the Master of Teaching (Secondary) to become a mathematics teacher.

Apply mathematical methods and models to find solutions to practical problems. Explore the relationship and application of mathematics to other disciplines such as physics, engineering, information technology and biology. Develop your problem-solving and analytical skills by studying key courses in simulation theory, algebra, differential equations and stochastic calculus. Broaden your knowledge and skills through additional courses in IT and programming focusing on statistical methods, fundamentals of programming, and understanding databases. Participate in the Maths Clinic program in your final year, working closely with an industry partner on a real-world project. Gain international experience through a study exchange. Continue your studies with the Master of Teaching (Secondary) to become a mathematics teacher. You also have the option of transferring into the Bachelor of Mathematics (Data Science) and receiving study credit for successfully completed courses.

Discover the latest trends and developments in information technology coupled with contemporary business management practices. Designed for professionals with an IT or non-IT background, you will learn about strategic

stakeholder engagement, business intelligence and the management of complex information systems in a business setting. Study a range of theoretical courses covering universal IT practices, including areas like Information Systems, Organisational Transformation and Business Modelling, Information Governance, and Project Management. Tailor your studies through elective courses covering topics such as data and web mining, security operations, network infrastructure, commercial law, global business, marketing, accounting and people management. Complete a major project where you will work on a real-world issue or challenge within a structured team, applying modern IT and management techniques. Graduate with a qualification accredited by the Australian Computer Society.

CAREERS

Business and systems analyst / ICT manager / software programmer / applications programmer / ICT network and support manager / solutions architect / ICT project manager / ICT portfolio manager / ICT test manager

ENTRY REQUIREMENTS

- Bachelor degree in any discipline from a recognised higher education institution; or
- Graduate certificate in information technology or a graduate certificate in information systems from a recognised higher education institution; or
- Graduate diploma in information technology or a graduate diploma in information systems from a recognised higher education institution.

DEGREE STRUCTURE

Join a rapidly growing industry tasked with protecting critical IT infrastructure and information. Study technical topics such as network infrastructure, security operations, web and cloud security, and cybersecurity planning and compliance. Develop the leadership and negotiation skills needed for a cybersecurity expert, and to manage cybersecurity projects and personnel. Explore cybersecurity defence strategies for complex environments, including penetration testing and presentation methods for communicating technical topics to broader audiences. Learn how to apply technical skills to organisational contexts with a focus on risk management and incident response. Gain valuable practical experience by completing a final-year cybersecurity exercise where you will devise and implement a defence strategy for a complex enterprise environment. Collaborate with our Innovation and Collaboration Centre, and access industry expertise in technology, design, business growth, management, marketing and commercialisation.

CAREERS

Security analyst / cryptanalyst / security software developer / cybersecurity specialist / system security engineer / cyber solutions architect / cybersecurity adviser / cybersecurity manager / test lead

ENTRY REQUIREMENTS

- Entry to this program is competitive and will be assessed by the Program Director. Applicants will have typically completed a bachelor degree in information technology with a UniSA equivalent Grade Point Average (GPA) of at least 5.0.
- Applicants who have completed a bachelor degree or higher in any discipline may also be considered for entry based upon their IT expertise gained through formal tertiary studies and/or relevant work experience. These applicants are required to submit a detailed curriculum vitae.
- Applicants may be required to attend an interview, either in-person or online.

DEGREE STRUCTURE

Enter the revolutionary field of big data where there is a growing demand for qualified data scientists. Learn how to find patterns, make meaning and draw value from large data sets, which can be applied across a wide range of industries and business environments. Build strong foundational skills in data and statistics such as data analytics, big data basics, statistical programming, and relational databases and warehouses. Learn to analyse and visualise rich data sources, spot data trends and generate data management strategies. Benefit from coursework designed in consultation with industry, including the Institute of Analytics Professionals of Australia and the leader in business analytics and software – SAS. Complete a professional project in your final year, gaining practical experience in modern data techniques and practices.

CAREERS

Data scientist / big data visualiser / business intelligence analyst / information security analyst / social media analyst / customer insights analyst / data analyst / data engineer / research analyst

PROGRAM CODE: **LMCL** | CRICOS CODE: **VARIES**

*see pages 93–95 for details

Develop advanced knowledge in engineering theory and practice, and tailor your studies by choosing the specialisation that interests you most in either Civil and Infrastructure, or Water Resources Management. Study core courses in steel and timber design, reinforced concrete design and advanced soil mechanics. Access industry-standard facilities on campus including high-tech testing and computer-modelling equipment. Complete a master design project and major research project focusing on real-world projects and challenges. You can also choose to study project management and leadership in your degree through elective courses.

ENTRY REQUIREMENTS

- Bachelor degree or equivalent qualification in civil engineering, or a related discipline, from a recognised higher education institution.
- Depending on the specialisation chosen, a related discipline may be other four-year engineering or science degrees.
- Applicants who do not meet the standard entry requirements will be assessed on a case-by-case basis by the Program Director.
- Some applicants may be eligible for Advanced Standing and can complete the program in one year or 1.5 years of full-time study.

Master of Engineering (Civil and Infrastructure)

PROGRAM CODE: **LMCL** | CRICOS CODE: **088538E**

*see pages 93–95 for details

Study advanced structural and geotechnical engineering. Apply and synthesise civil engineering theories to help solve practical infrastructure problems. Create and design models that can be used in critical infrastructure design and analysis. Choose to focus extensively on project management and leadership through dedicated elective courses. Develop your communication skills to effectively engage other engineering professionals and broader stakeholders. Alternatively, you can choose electives that cover a broad range of topics, including transportation engineering, green infrastructure, structural analysis, climate change adaptation, and earthquake and masonry engineering.

CAREERS

Civil engineer / structural engineer / geotechnical engineer / civil construction manager / civil project manager / operations manager / civil division manager

DEGREE STRUCTURE

Degrees:

- Master of Engineering (Electrical Power)
- Master of Engineering (Telecommunications)

unisa.edu.au/engineering

 Mawson Lakes Campus	 Real-world projects
 2 years full-time	IELTS Total 6.5 IELTS Reading 6.0 IELTS Writing 6.0
 A\$38,800 pa* <i>indicative 2021</i>	
 February and July intakes	

PROGRAM CODE: **LMEL** | CRICOS CODE: **VARIES**

**see pages 93–95 for details*

Develop advanced knowledge in engineering theory and practice, and tailor your studies by choosing a specialisation that interests you most in either Electrical Power or Telecommunications. Complete a major research project and a minor engineering thesis during your studies, focusing on real-world engineering challenges. Benefit from links to our internationally-recognised Institute for Telecommunications Research and the multi-million dollar Future Industries Institute located on campus.

ENTRY REQUIREMENTS

Bachelor degree in electrical engineering, or a related discipline, from a recognised higher education institution.

Master of Engineering (Electrical Power)

PROGRAM CODE: **LMEL** | CRICOS CODE: **079908C**

**see pages 93–95 for details*

Further your knowledge in electrical engineering with a particular focus on electrical power. Studying modern power systems, renewable and distributed energy generation, and advanced machine modelling. Tailor your studies through a range of elective courses focusing on areas such as advanced control, digital signal processing, industrial autonomous systems and linear electronic circuits. Complete a minor thesis as a core course, applying advanced research methods to a real-world challenge (such as renewable energy storage or the optimisation of electrical power systems); or an industry-related project.

CAREERS

Electrical engineer / project engineer / operations manager / project development manager / renewable energy projects manager / asset management manager / sustainable energy engineer / researcher

DEGREE STRUCTURE

ELECTRICAL POWER SPECIALISATION
FIRST YEAR
CORE COURSES
Renewable Energy Systems UG Power System Analysis Engineering Research Practice
SPECIALISATION COURSES
Select a total of 22.5 units from the following: <ul style="list-style-type: none">• Design and Integration of Renewable Energy Systems• Operation and Control of Modern Power Systems• Power Electronics• Learning in the Workplace Project
Advanced Control and Signal Processing Electronic Filters and Amplifiers VLSI Design Digital Signal Processing Industrial Automation Systems Energy and Society
SECOND YEAR
CORE COURSES
Renewable and Distributed Power Generation Advanced Electrical Machines Advanced Power System Modelling and Analysis Engineering Minor Thesis 1 Engineering Minor Thesis 2
Select one of: <ul style="list-style-type: none">• Engineering Economic Analysis• Total Quality Management• Lean Six Sigma• Project Planning and Control G• Enterprise Resource Planning• Operations Management Systems

Master of Engineering (Telecommunications)

PROGRAM CODE: **LMEL** | CRICOS CODE: **079909B**

**see pages 93–95 for details*

Further your knowledge in electrical engineering, coupled with information and communication technologies. Focus on wireless and mobile communication systems, theory and coding, and complex telecommunication networks. Tailor your studies through a range of elective courses covering topics such as modern communication systems, optical communications, advanced control and network infrastructure. Complete a minor thesis as a core course, applying advanced research methods to a real-world challenge, or industry-related project.

CAREERS

Telecommunications engineer / network engineer / communications engineer / network planning manager / telecommunications development manager / researcher

DEGREE STRUCTURE

TELECOMMUNICATIONS SPECIALISATION
FIRST YEAR
CORE COURSES
Digital Communications Digital Signal Processing Engineering Research Practice
SPECIALISATION COURSES
Select a total of 22.5 units from the following: <ul style="list-style-type: none">• Modern Communication Systems• Optical Communications• Network Infrastructure• Learning in the Workplace Project
Electronic Filters and Amplifiers VLSI Design Advanced Control and Signal Processing Renewable Energy Systems Power Electronics Energy and Society
SECOND YEAR
CORE COURSES
Telecommunications Networks Mobile Communications and Wireless Access Information Theory and Coding Engineering Minor Thesis 1 Engineering Minor Thesis 2
Select one of: <ul style="list-style-type: none">• Engineering Economic Analysis• Total Quality Management• Lean Six Sigma• Project Planning and Control G• Enterprise Resource Planning• Operations Management Systems

WE ALSO OFFER

Graduate Diploma in Engineering (Engineering Management)

SCIENCE

Master of Environmental Science

unisa.edu.au/enviro

Nested with: Graduate Certificate in Environmental Science (LCES), Graduate Diploma in Environmental Science (LGES)

 A\$36,600 pa* indicative 2021	
 February and July intakes	

PROGRAM CODE: **LMEV** | CRICOS CODE: **058635G**

*see pages 93–95 for details

Develop advanced and integrated knowledge in sustainability, natural resources and geospatial sciences. Designed for environmental scientists and managers, this qualification will help further your expertise in natural and water resources management. Explore the theory and practice of managing and sustaining our natural and built environment through core courses and advanced electives. Build your understanding of managing resources within a sustainability framework, applying systems thinking, spatial data management and analysis, and complex project management. Complete a major industry research project, focusing on a real-world issue or challenge. Engage with world-class researchers and focus on improvements and innovations in sustainable principles and environmental practices.

CAREERS

Natural resource manager / environmental manager / environmental management consultant / environmental planner / sustainability adviser / environmental policy adviser / environmental scientist / project manager / researcher

ENTRY REQUIREMENTS

- Bachelor degree, graduate certificate or graduate diploma in a relevant discipline (typically including science, engineering, environmental studies or environmental management) from a recognised higher education institution, or equivalent qualification.
- Some applicants may be eligible for Advanced Standing and can complete the program in one year or 1.5 years of full-time study.
- Applicants with qualifications in other disciplines are encouraged to apply and will be assessed on a case-by-case basis.

DEGREE STRUCTURE

FIRST YEAR
Arid Land Environments Valuing the Environment Elective 1 Elective 2
Community Partnerships Natural Resource Management Environmental Impact Assessment N Elective 3
SECOND YEAR
Masters Research Theory and Practice Engineering and Environmental Masters Design Project Elective 4
NBE Masters Research Project Elective 5 Elective 6

PROJECT MANAGEMENT

Master of Project Management

unisa.edu.au/projectmanagement

Nested with: Graduate Diploma in Project Management (IGBP)

 City East Campus	 Real-world projects
 2 years full-time	 Professionally recognised
 A\$36,600 pa* indicative 2021	IELTS Total 6.5 IELTS Reading 6.0 IELTS Writing 6.0
 February and July intakes	

PROGRAM CODE: **IMPA** | CRICOS CODE: **081832M**

*see pages 93–95 for details

Graduate with a qualification endorsed by the Australian Institute of Project Management and apply key learnings across a wide range of industries, businesses and government departments. Study the fundamentals of project management and gain an advanced understanding of risk management, leadership, strategy and international best practice. Develop the skills to apply practical project management methodologies, work in interdisciplinary project teams and manage projects from inception to delivery. Learn how to establish a project, prepare project plans to meet objectives and requirements, select appropriate management tools for monitoring and controls, and communicate effectively to various stakeholders. Complete a major integrated research project, which can focus on a real issue within your workplace. Benefit from a program that explores the latest international best practice guidelines from PMI (PMBOK) and PRINCE2. This qualification is also endorsed by the Australian Institute of Program Management, a member of the International Project Management Association (IPMA).

CAREERS

Qualified project managers can work across a wide range of industries, including:

Information technology / construction / engineering / health / defence / finance / mining and resources / biopharmaceuticals / the arts / communications and media / education / government / not-for-profit

ENTRY REQUIREMENTS

- Bachelor degree from a recognised higher education institution; or
- Graduate certificate or graduate diploma in project management from a recognised higher education institution.

DEGREE STRUCTURE

FIRST YEAR
Principles of Project Management Project Risk Management Procurement and Contract Management Project Governance and Ethics
Project Control Methods Project Leadership and Teams Economic, Social and Environmental Analysis Masters Research Theory and Practice
SECOND YEAR
NBE Masters Research Project Portfolio and Program Management Strategy in Project Organisations
Managing Complexity in Projects Professional Practice Project Business Continuity Management Systems Elective 1

WE ALSO OFFER

Graduate Certificate in Environmental Science

Graduate Diploma in Environmental Science

Graduate Diploma in Project Management

Graduate Diploma in Project Management (Contract Management)

Master of Applied Project Management

Master of Applied Project Management (Contract Management)

Masters by Research

Doctor of Philosophy (PhD)

UNDERGRADUATE AND POSTGRADUATE ADMISSIONS

Undergraduate admissions

You will need to have completed one of the following for entry:

- » *An Australian Year 12 or equivalent international program; or*
- » *A recognised Foundation Studies program; or*
- » *A SAIBT, Eynesbury, TAFE or other recognised tertiary pathway program.*

To apply, visit unisa.edu.au/international/apply

AUSTRALIAN TERTIARY ADMISSION RANK (ATAR)

If you are an international student studying the Australian Year 12 curriculum in Australia or offshore, entry to our undergraduate degrees is determined by a Selection Rank score, which is provided for every program. The Selection Rank is your Australian Tertiary Admissions Rank (ATAR) including any Adjustment Factors (formerly known as Bonus Points). Applications for entry are completed through the South Australian Tertiary Admissions Centre (SATAC).

For more information, and to apply, visit satac.edu.au

STUDY CREDIT

If you have completed previous studies at university, in a diploma program or an equivalent post-secondary qualification, you may be eligible to receive study credit, exemptions or advanced standing towards your degree. You may also be considered for credit if you have work experience in an area relevant to your studies.

To check your eligibility, visit creditassessor.unisa.edu.au

Postgraduate admissions

You will need to have completed one of the following for entry:

- » *An undergraduate degree, to the required standard, from a recognised higher education institution in Australia or the international equivalent; and/or*
- » *The equivalent professional work experience.*

The University offers both coursework and research degrees.

English language requirements

The table on the next page sets out the minimum English language requirements for entry into our degrees (but should be used as a guide only). Many degrees require higher English language proficiency scores, so you will need to check the specific score for your preferred program.

Applicants from countries where English is an official language, or who have recent study experience in an English setting, may be eligible to use this to meet the English language proficiency requirement. Certified documentation is required. We will consider all applications on a case-by-case basis.

The Centre for English Language at the University of South Australia (CELUSA) provides programs designed to prepare students from non-English speaking backgrounds for university study. CELUSA is suited to both undergraduate and postgraduate applicants that do not meet the University's English language entry requirements and offers Academic English (AE) language preparation programs.

For more information, visit unisa.edu.au/english-language-requirements

STREAMLINED VISA APPLICATION

Apply to study with one of our education partners and receive a packaged offer that allows you to apply for one student visa for the entire duration of your study under the Simplified Student Visa Framework (SSVF).

For more information, see pages 86-87.

Undergraduate	Postgraduate
English language test scores <i>English language test results are generally valid for two years prior to your date of commencement at the University of South Australia.</i>	
IELTS (International English Language Testing System) (Academic)	
6.0 overall with a 6.0 in Reading and Writing	6.5 overall with a 6.0 in Reading and Writing
University of Cambridge C1 Advanced	
169 with a 169 in Reading and Writing	176 with a 169 in Reading and Writing
TOEFL (Test of English as a Foreign Language)	
iBT (Internet-based test).....60 with Reading and Writing not less than 18 PBT (Paper-based test)..... 550 with TWE (Test of Written English) of 4.5	iBT (Internet-based test).....79 with Reading and Writing not less than 18 PBT (Paper-based test)..... 577 with TWE (Test of Written English) of 4.5
PTE (Pearson Test of English) Academic	
50 with Reading and Writing communicative score not less than 50	58 with Reading and Writing communicative score not less than 50
English language program scores	
Successful completion of the Centre for English Language at the University of South Australia (CELUSA) Academic English Program	
Level 4	Level 5
TAFE SA English for Academic Purpose 20 (EAP 20)	TAFE SA English for Academic Purposes
Credit	Advanced
Other qualifications	
Other qualifications may be accepted. The University maintains information on countries where English is commonly used and which satisfy the above criteria. This can include particular educational institutions within a non-English speaking country where English is the language of instruction.	

Undergraduate admission requirements by country/region

A summary of the minimum entry requirements by country/region for 2021 admission.

Country/region	Qualifications	Minimum entry requirements
Australia	Year 12 OR Foundation Studies program OR a diploma	Year 12: Selection Rank (ATAR) of at least 65 and see Note 3 Foundation Studies: assessed on a case-by-case basis
Argentina	Bachillerato	See Note 1
Azerbaijan	Certificate of Secondary Education	See Note 1
Bangladesh	Higher Secondary Certificate	Minimum grade point average of 3.5 out of 5
Bhutan	Bhutan Higher Secondary Education Certificate (BHSEC) OR Indian Higher Secondary School Certificate (10+2)	Aggregate of at least 60 per cent in best four subjects (excluding any local languages)
Botswana	UK Board GCE A Levels	See Note 2
Brazil	Título de Técnico	Assessed on a case-by-case basis
Brunei	UK board GCE A Levels	See Note 2
Cambodia	Cambodian Baccalaureate/Diploma of Upper Secondary Education	See Note 1
Canada	British Columbia Certificate of Graduation (Dogwood Diploma)	Best four Grade 12 subjects and the compulsory subject 'English 12'
	Ontario Secondary School Diploma (OSSD)	Best six Grade 12 University Preparation 4U courses or 4M University/College Preparation courses
		Each province/territory has its own High School Certificate and is assessed individually
Chile	Licencia de Educación/Enseñanza Media	See Note 1
China, People's Republic of	National University Entrance Exam (Gaokao) Senior Middle Three	Assessed on a case-by-case basis See Note 1
Colombia	Bachiller/Bachillerato Académico	See Note 1
Denmark	Bevis for Højere Forberedelseksamen or Bevis for Studentereksamen	Minimum grade point average of 02 for both year's study and exams
Ecuador	Titulo de Bachiller	See Note 1
Egypt	General Secondary Education Certificate	See Note 1
Fiji	7th Form Fiji School Leaving Certificate OR 6th Form Certificate plus one year of undergraduate study OR the University of the South Pacific Foundation Year	Assessed on a case-by-case basis
Finland	Ylioppilastutkinto/Studentexamen (Matriculation Examination)	Minimum grade point average of 3 out of 7
France	Diplôme du Baccalaureate General OR Technologique	Minimum grade point average of 11 out of 20
Germany	Zeugnis der Allgemeinen Hochschulreife/Abitur	Minimum grade average of 4.0
Ghana	GCE A Levels OR West African Senior School Certificate (WASSC)	See Note 2 OR WASSC with an overall score of 18 or less based on the best six subjects
Hong Kong, SAR	HKDSE	HKDSE is based on best of five subjects (Category A only) from any core or elective subject combination where Level 5**=6pts, 5*=5.5, 5=5, 4=4, 3=3, 2=2, 1=1. Minimum Level 2 is required for core subjects. Specific subject requirements apply for specified programs.
Iceland	Stúdentspróf (Academic) (Matriculation Certificate)	Minimum grade point average of 6 out of 10
India	All India Senior School Certificate, Indian School Certificate, Higher Secondary School Certificate, Senior Secondary School Certificate, Intermediate Certificate, Pre-University Certificate	Successful completion of Senior Secondary Certificate (10+2) with an average of at least 60 per cent in best four subjects (excluding any local languages)
Indonesia	SMA 3 plus the National Exam	Satisfactory completion of the Secondary School Certificate of Graduation (SKHUN/STK) with an average score of 65 per cent, excluding all local language and non-academic subjects
International Baccalaureate (IB) Diploma	IB	Minimum grade point average of 26 in best six subjects. Some programs require a higher score – go to study.unisa.edu.au to find your preferred program and specific entry requirements.
Iran	Pre-University Certificate, National High School Diploma	Successful completion of the Pre-University Certificate OR High School Diploma. See Note 1.
Ireland	GCE A Levels	See Note 2
Italy	Diploma di Maturità, Diploma di Esame di Stato	Minimum grade point average of 7 out of 10
Japan	Upper Secondary Leaving Certificate	Minimum average of 80 per cent
Jordan	General Secondary Education Certificate	See Note 1
Kenya	Kenyan Certificate of Secondary Education (KCSE) UK Board GCE A Levels	Grade average of B See Note 2
Korea, Republic of	Senior High School Diploma	See Note 1
Kuwait	General Secondary Education Certificate OR Secondary School Certificate	See Note 1
Laos	Laos Baccalaureate OR Upper Secondary School Diploma	See Note 1
Lebanon	General Secondary Certificate OR Technical Baccalaureate	Assessed on a case-by case basis
Macau, SAR	GCE A Levels	See Note 2
Malaysia	STPM, UEC, GCE A Levels Canadian Year 12	GCE A Level (see Note 2). STPM calculation A or A-=5pts; B+=4; B=3; B- or C+=2; C=1. Add the points scored for best of three courses attempted at one examination, not including the General Paper. UEC calculation A1=1pt; A2=2; B3=3; B4=4; B5=5; B6=6; C7=7; C8=8. Aggregate should not include Chinese or Bahasa Malaysia and/or General Paper.

Country/region	Qualifications	Minimum entry requirements
Maldives	UCLES A levels/HSC	See Note 2
Mauritius	Cambridge Higher School Certificate	See Note 2
Mexico	Título Académico de Bachiller/Diploma de Bachiller/Bachillerato General	See Note 1
Myanmar	Myanmar Matriculation/Basic Education High School (BEHS) Examination and one year post secondary study	See Note 1
Nepal	National Examinations Board Certificate	Successful completion of Class XII with a minimum GPA of 2.41
Netherlands	Voorbereidend Wetenschappelijk Onderwijs (VWO) (Gymnasium A/B and Atheneum A/B) Diploma	Minimum grade average of 6.0
New Zealand	National Certificate of Educational Achievement (NCEA)	Equivalent of eligibility to enter a New Zealand university with the required score equivalent to Selection Rank (ATAR). See Note 3.
Nigeria	Senior School Certificate (SSC) OR West African Senior School Certificate (WASSC)	Successful completion of either the SSC or WASSC with an overall score of 18 or less based on the best six subjects
Norway	Vitnemål fra den videregående skole (Leaving Certificate from Upper Secondary School)	Minimum grade average of 2.8
Oman	General Education Diploma	See Note 1
Pakistan	GCE A Levels OR Higher Secondary School OR Intermediate Certificate	See Note 2 OR minimum grade average of 75 per cent
Paraguay	Título de Bachillerato Científico	See Note 1
Peru	Certificado de Educacion Secundaria Comun Completa	See Note 1
Philippines	Senior High School (academic stream)	Minimum of 85% (including 85% for any prerequisite subjects)
Saudi Arabia	General Secondary Education Certificate	See Note 1
Singapore	Singapore GCE A Levels	Successful completion of three H2 subjects with a minimum score of six points (grading scale A = 5, B = 4, C = 3, D = 2, E = 1)
South Africa	National Senior Certificate	Successful completion with a general average grade of 5, excluding Life Orientation
Spain	Titulo de Bachiller	Minimum grade point average of 5 out of 10
Sri Lanka	Sri Lankan General Certificate of Education Advanced Level and GCE A Levels	Successful completion with a minimum score of 6 (grading scale A = 5, B = 4, C = 3, S = 2). Calculation is based on the best three subjects. GCE A Levels see Note 2.
Sweden	Avgångsbetyg/Slutbetyg från Gymnasieskola (Upper Secondary School Certificate)	Minimum GPA of 12.5
Taiwan ROC	Senior High School Diploma/Senior Vocational High School Diploma	Minimum average of 80 per cent or B average
Tanzania	NECTA (National Examinations Council of Tanzania) Advanced Certificate of Secondary Education	See Note 2
Turkey	High School Diploma	See Note 1
Thailand	Mathayom VI	Successful completion of Mathayom VI with a minimum grade point average of 3.5 plus completion of the Certificate of Secondary Education
Uganda	Uganda Advanced Certificate of Education (UACE)	See Note 2
United Arab Emirates	General Secondary Education Certificate Examination (General/Religious)	See Note 1
United Kingdom	GCE A Levels	See Note 2
United States of America	US High School Diploma plus appropriate SAT, ACT or AP score	SAT program scores are listed on the program charts found on pages 91-92. ACT and AP scores are individually assessed.
Uruguay	Bachillerato	See Note 1
Venezuela	Bachiller	See Note 1
Vietnam	Vietnamese Year 12	Successful completion with a minimum grade point average of 7.0 out of 10 – special considerations may be made for graduates of Vietnamese Gifted Schools
Zimbabwe	Zimbabwe General Certificate of Education A Levels	See Note 2

Note 1: Students require an additional year of study following their high school studies. This can include the successful completion of a recognised pre-tertiary program; Foundation Studies; or one year of study at a recognised tertiary or higher education institution.

Note 2: Students must have a minimum of six points for entry (some programs require a higher score) and have completed 3x A levels. The score is calculated using the best 3 subjects and can include local languages and 1 Advanced Subsidiary (AS) grade. AS grades cannot be used for any pre-requisite subject/s. The scoring system is A*=6, A=5, B=4, C=3, D=2, E=1.

Note 3: Selection Rank is your Australian Tertiary Admission Rank (ATAR) including any Adjustment Factors (formerly known as Bonus Points).

For other countries, please contact our International Office (e) unisa.edu.au/enquire • (p) +61 8 8302 0114

Undergraduate pathway options

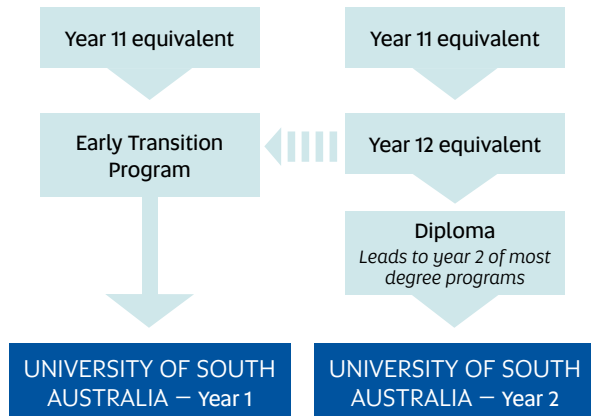

There are many alternative pathways to help you gain entry into the University of South Australia. This includes on-campus programs delivered at City West and City East, as well as other off-campus options.

To learn more, visit unisa.edu.au/international-pathways

ON CAMPUS

THE SOUTH AUSTRALIAN INSTITUTE OF BUSINESS AND TECHNOLOGY (SAIBT)

SAIBT offer an early transition program and a range of diploma programs that provide entry into over 90 undergraduate degrees at the University of South Australia (please note some programs require a competitive Grade Point Average). The SAIBT programs are an ideal alternative if you are ineligible for direct entry into your preferred degree. Successful completion of your SAIBT program will provide direct entry into either first or second year (with credit granted) of your chosen program.

Diplomas include:

Diploma of Arts
Diploma of Business
Diploma of Engineering
Diploma of Information Technology
Diploma of Health Science

(w) saibt.sa.edu.au
(e) saibt@navitas.com
(p) +61 8 8302 2021

CRICOS provider code: SAIBT 02193C

CENTRE FOR ENGLISH LANGUAGE (CELUSA)

The Centre for English Language at the University of South Australia (CELUSA) delivers high quality Academic English programs designed to prepare students from non-English speaking backgrounds for university study. CELUSA is suited for applicants who do not meet the University's English language entry requirements and offers Academic English (AE) language preparation programs. Students who are eligible for and successfully complete an AE program (at an appropriate level) will be able to commence their studies at the University of South Australia or a pathway program through SAIBT. CELUSA is also an IELTS and OET test centre.

(w) unisa.edu.au/celusa
(e) celusa@navitas.com
(p) +61 8 8302 2021

CRICOS provider code: CELUSA 02193C

STREAMLINED VISA APPLICATION

Apply to study with one of our education partners and receive a packaged offer that allows you to apply for one student visa for the entire duration of your study under the Simplified Student Visa Framework (SSVF).

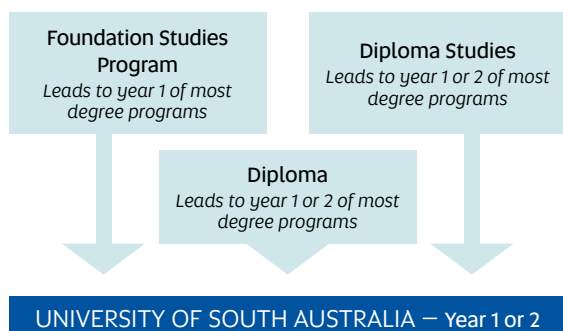

CONTACT US

Contact our international office to find out if you are eligible for entry into a pathway program. Submit an online form at unisa.edu.au/enquire or phone +61 8 8302 0114

OFF CAMPUS

EYNESBURY COLLEGE

Eynesbury College offers a range of programs that can lead into the first or second year of an undergraduate degree at the University of South Australia.

Eynesbury College programs include:

English Language programs (for undergraduate and postgraduate entry)

Senior High School (Years 10, 11 and 12)

Foundation Studies Program

Diploma Studies: Business or Computing & IT

Diploma: Business, Engineering or Computing and IT

Located in the city centre, Eynesbury College is close to our City East and City West campuses, and offers excellent teaching quality and support for students. The college is also a Pearson PTE Academic test centre.

(w) eynesbury.navitas.com

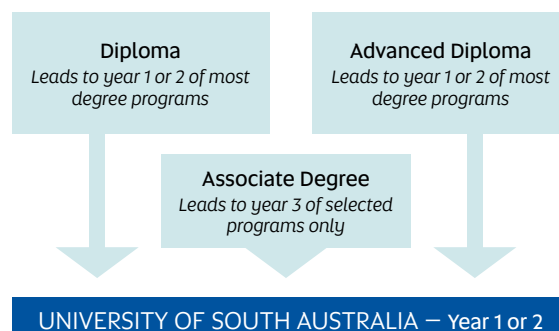

(e) eynesbury@navitas.com

(p) +61 8 8216 9165

CRICOS provider code: 00561M

TAFE SA

TAFE SA packaged programs offer you a practical way of achieving your end goal of an undergraduate degree from the University of South Australia.

Successfully completing a TAFE SA Diploma, Advanced Diploma or Associate Degree provides entry into a range of undergraduate degrees at the University of South Australia, and credit for previous study can lead you directly into year 1, 2 or 3, reducing the overall study time through credit transfers.

TAFE SA English for Academic Purposes 20 (064266M) and English for Academic Purposes Advanced (086001K) can provide direct entry into some degrees.

(e) international@tafesa.edu.au

(p) +61 8 8463 5487 or

1800 049 492 (for free calls within Australia)

CRICOS provider code: 00092B

RTO code: 41026

HEP code: PRV14002

How to apply: undergraduate and postgraduate

1

Find your degree

Explore your study options in this guide or go online for more information.

unisa.edu.au/study

2

Check admission requirements

Make sure you are aware of entry requirements for the University as well as individual program requirements.

- ✓ English language requirements
- ✓ Guidelines on genuine temporary entry
- ✓ Guidelines on living costs and evidence of funds

unisa.edu.au/international/apply

3

Apply

Once you have found the program you wish to study, you can apply online either directly or via an Education Agent. Apply at least two months before you intend to start studying. Some students may require more time to ensure they receive their visa.

Apply directly – You can apply directly via our secure online service. Save your application and return later to continue the process and track your progress.

Education Agents – Depending on your country of citizenship, you may be required to apply through one of our registered Education Agents. A full list is available online at unisa.edu.au/find-an-agent

unisa.edu.au/international/apply

Supporting documentation

Attach the following documents to your online application to avoid delays.

- Certified* copies of academic transcripts and graduation certificates, including information on your institution's grading system as required;
- English language test results (e.g. IELTS or TOEFL) where applicable;
- Detailed syllabi/course outlines of previous studies if you are applying for credit or advanced standing;
- Additional academic and employer references if required; and
- A certified* copy of the personal details page and signature page of your passport.

*A certified copy is a copy of the original document that has been certified by an official such as a University of South Australia Education Agent or staff member, justice of the peace, notary public, police officer or examining authority.

4

Application assessment

Application outcomes will be advised within one to two weeks from the date received (including all supporting documentation required).

If you are eligible for your chosen program, an offer letter package will be sent to you, or your Education Agent, via email. If you are not eligible, we may suggest alternative programs or pathway studies. Your application will be assessed in accordance with the University's Selection and Entry to Programs Policy, which includes the guidelines on genuine temporary entry and guidelines on living costs and evidence of funds.

unisa.edu.au/international/apply

5

Accept your offer

To accept a place in your offered program, you will need to:

- Check the offer letter package
- If all details are correct, log in and complete the following steps:
 - 1 View your offer.
 - 2 Click the *Actions* button and select *Respond to Offer*.
 - 3 Ensure the offer details are correct and select *Accept Offer*.
 - 4 Upload any additional documents required to meet your condition/s (if applicable).
 - 5 Select the box to confirm you have read, understood and agree to the terms and conditions of the offer.
 - 6 Enter your full name and any comments you have before clicking *Accept Offer*.
 - 7 Pay via bank transfer or credit card using the Western Union GlobalPay for Students portal.
 - 8 Once you have finalised your payment, we will action your acceptance.

If you have an Education Agent, they can help you accept your offer via student-unisa.studylink.com

Student visas

We will send you a Confirmation of Enrolment (CoE) document, which you can use to apply for a student visa for entry into Australia. Apply for your student visa as soon as you receive your CoE.

unisa.edu.au/student-visa

Student payments

The Western Union GlobalPay for Students service helps you make payments in your preferred currency without extra fees and delays.

- Pay your tuition fees quickly.
- Make payments online, by bank transfer or via credit card.
- Track payments and receive status updates by text and email.

unisa.edu.au/westernunion

6

Prepare for arrival

Enrol online

Enrol online from any location and have the same choice as local students when organising your timetable.

Travel bookings

Flights to Australia can be heavily booked during January, February and July, so check with your travel agent early for flight options. Do not confirm bookings until you receive your CoE document. Once you have confirmed your travel arrangements, you can request our airport pick-up service and on-arrival temporary accommodation if needed.

Arrive on time

Arrive before Orientation Week to receive vital information and have the best possible start to university. If you are unable to arrive by the commencement date, you may have to defer your offer. Please note, some programs have compulsory orientation.

Orientation

We will welcome you to Adelaide with orientation sessions and activities to introduce you to life in Adelaide and on campus. You will also have the opportunity to meet other new students.

SP5 2 Aug 2021 – 20 Nov 2021

Summer Term

SP7 1 Nov 2021 – 5 Feb 2022

Please note that some programs may have a different start date. Please check your offer letter for details.

Actual teaching dates may vary for some programs. It is important that students consult their timetable for exact teaching dates.

Commencement of study begins with Orientation. Please ensure your travel plans enable you to arrive in time for this.

IMPORTANT INFORMATION

The University of South Australia reserves the right to alter, amend or delete any program, fee, course, admission requirement, or mode of delivery without prior notice.

Some programs may have additional entry requirements. For further details and to view the most up to date program information, visit: unisa.edu.au/study

Please note the University calculates a Grade Point Average (GPA) on a scale from 1–7. For more information, go to: unisa.edu.au/gpa

Fees

Fees listed are valid for students enrolled in the 2021 academic year only. Commencing students enrolled should be aware that annual tuition fees will increase for each year of study. You will be liable for these fees upon acceptance of an offer from the University.

In the event of a variation between the fees listed here and the approved schedule of tuition fees found at unisa.edu.au/study, the approved university schedule will prevail.

All fees are listed in Australian dollars (A\$).

For more information about research possibilities, contact research.itee@unisa.edu.au

Check your eligibility

Your eligibility will depend upon the type of research degree you wish to study, as well as your prior qualifications and professional experience. Students from non-English speaking countries will also need to demonstrate their capacity to undertake study in English before being accepted into a program. The eligibility criteria listed below are the minimum requirements. Eligibility is also subject to the assessment of the proposed research, availability of a supervisor, and any research-specific requirements.

MINIMUM ELIGIBILITY REQUIREMENTS

Masters by Research

An honours degree, bachelor degree with honours, or a relevant bachelor degree (or equivalent) of at least three years with a minimum credit average, or an appropriate master's degree. Qualifications will be assessed on a case-by-case basis for equivalence.

OR

No tertiary qualifications, but you can demonstrate research capabilities through evidence of professional work experience in the field of proposed study and by relevant publications.

Doctor of Philosophy (PhD)

Honours 1, Honours 1 equivalence, Honours 2A equivalence or an appropriate master's degree (or equivalent). Qualifications will be assessed on a case-by-case basis for equivalence.

OR

Individual assessment of qualifications and research capabilities as proven through evidence of professional work experience in the field of proposed study and by relevant quality publications. The outcome of this assessment will determine the program options available to you.

Professional Doctorate

Honours 1, Honours 1 equivalence, Honours 2A equivalence or an appropriate master's degree (or equivalent). Qualifications will be assessed on a case-by-case basis for equivalence.

OR

Individual assessment of qualifications and research capabilities as proven through evidence of professional work experience in the field of proposed study and by relevant quality publications. The outcome of this assessment will determine the program options available to you. Professional Doctorate candidates must also demonstrate at least five years practice in a relevant field, and typically within the last ten years.

MINIMUM ENGLISH LANGUAGE REQUIREMENTS

English language test scores

Results from IELTS, University of Cambridge C1 Advanced and TOEFL are generally valid for two years and must be valid at the time of commencement. For scholarships, test results must be valid at the scholarship closing date.

International English Language Testing Systems (IELTS) Academic

7.0 for English language-rich programs with a minimum of 6.0 in each sub-score*

6.5 for non-English language-rich programs with a minimum of 6.0 in each sub-score*

**To check which programs are English language-rich, go to unisa.edu.au/resdegree-english-requirements*

OR

Corresponding results from an equivalent test such as Test of English as a Foreign Language (TOEFL); the University of Cambridge C1 Advanced; Examinations for the Certificate of Proficiency in English (CPE) or the Certificate in Advanced English (CAE); the Pearson Test; or the appropriate academic English language level delivered by the Centre for English Language at the University of South Australia (CELUSA).

Applicants from countries where English is an official language or who have had recent and relevant experience in an English setting may meet our minimum English entry requirements. Evidence must be provided.

unisa.edu.au/resdegree-english-requirements

3

Search for a supervisor

The University of South Australia has internationally-recognised research supervisors with expert knowledge across an impressive range of research areas. To begin your search, go to our dedicated website.

[unisa.edu.au/
find-a-supervisor](https://unisa.edu.au/find-a-supervisor)

4

Find a scholarship

There are a variety of scholarships and funding opportunities available to help you financially throughout your studies. Scholarships are assessed on competitive merit and are awarded to the best candidates. Scholarships typically provide support for three years for PhD and Professional Doctorate candidates, and two years for students studying a master's qualification.

Scholarships have specific opening and closing dates, so make sure you read the criteria. If you are applying for a scholarship, you should indicate this when you apply for entry into your research degree through our online application system.

unisa.edu.au/resdegrees

5

Apply

You should prepare the following before commencing your online application:

- » Two referee reports (visit unisa.edu.au/resdegree-referee-reports);
- » Transcripts and parchments of completed undergraduate, honours and postgraduate programs;
- » Certification of English language proficiency;
- » Passport details or evidence of citizenship;
- » Outline of your proposed research;
- » Current Curriculum Vitae; and
- » Evidence of publications.

You will also need to know your program code. See pages 98-100 for details.

To apply, go to unisa.edu.au/applyonline

Marketing and related studies	DPBU	018568A	4	37,700
Finance and related studies	DPBU	018568A	4	37,700
Applied Economics	DPBU	018568A	4	37,700
Education, Arts & Social Sciences				
Masters by Research				
Architecture (including Interior Architecture)	MMRD	013177A	2	34,300
Australian Studies	MMDE	039461E	2	30,600
Communication	MMRD	024083E	2	34,300
Design – Visual Communication or Industrial Design	MMRD	013571B	2	34,300
Education	MMDE	000619J	2	30,600
Indigenous, Australian Studies	MMDE	039461E	2	30,600

	Program code	CRICOS code	Program length (in EFTSL)	2021 indicative annual tuition fee (A\$)
International Studies	MMRD	020957C	2	34,300
Languages and Linguistics	MMRD	020957C	2	34,300
Social Work and Social Policy	MMRD	040747C	2	34,300
Sociology	MMRD	020957C	2	34,300
Urban and Regional Planning	MMRD	024074F	2	34,300
Visual Arts	MMRD	024083E	2	34,300
Visual Arts – Major Studio Project	MMRD	024083E	2	34,300
Doctor of Education	MPEU	036294F	4	30,600
Doctor of Philosophy (PhD)				
Architecture (including Interior Architecture)	MPHD	015040B	4	34,300
Australian Studies	MPDE	048558K	4	30,600
Communication	MPHD	040645J	4	34,300
Design – Major Studio Project	MPHD	070417F	4	34,300
Design – Visual Communication or Industrial Design	MPHD	070417F	4	34,300
Education	MPDE	016149C	4	30,600
Indigenous Studies	MPDE	048558K	4	30,600
International Studies	MPHD	040646G	4	34,300
Languages and Linguistics	MPHD	070418E	4	34,300
Psychology	MPHD	040647G	4	34,300
Social Work and Social Policy	MPHD	040648F	4	34,300
Sociology	MPHD	072915E	4	34,300
Urban and Regional Planning	MPHD	065911A	4	34,300
Visual Arts	MPHD	036284G	4	34,300
Visual Arts – Major Studio Project	MPHD	036284G	4	34,300
Health & Medical Sciences				
Masters by Research				
Biomaterials Engineering and Nanomedicine	IMHC	088999J	2	37,700
Health	IMHC	036358F	2	37,700
Human Movement	IMHC	036359E	2	37,700
Medical Radiation	IMHC	065561G	2	37,700
Medical Science	IMHC	095535E	2	37,700
Health - Nursing or Midwifery	IMHC	024073G	2	37,700
Occupational Therapy	IMHC	036361M	2	37,700
Pharmaceutical Sciences	IMHC	065562F	2	37,700
Pharmacology	IMHC	095536D	2	37,700
Pharmacy	IMHC	009603M	2	37,700
Physiotherapy	IMHC	024052A	2	37,700
Podiatry	IMHC	065563E	2	37,700
Public Health	IMHC	095537C	2	37,700
Doctor of Philosophy (PhD)				
Biomaterials Engineering and Nanomedicine	IPHD	088989M	4	37,700
Health Sciences	IPHD	079308E	4	37,700
Human Movement	IPHD	048569G	4	37,700
Medical Radiation	IPHD	072917C	4	37,700
Medical Science	IPHD	072918B	4	37,700
Nursing	IPHD	024085C	4	37,700

Public Health	IPHD	072923E	4	37,700

Research degrees offered in 2021

	Program code	CRICOS code	Program length (in EFTSL)	2021 indicative annual tuition fee (A\$)
IT, Engineering & the Environment				
Masters by Research				
Applied Physics	LMIE	024051B	2	39,700
Bioinformatics	LMIE	065888F	2	39,700
Biomaterials Engineering and Nanomedicine (Engineering)	LMIE	088993D	2	39,700
Biomaterials Engineering and Nanomedicine (Information Technology and Mathematics)	LMIE	088998K	2	39,700
Biomaterials Engineering and Nanomedicine (Natural and Built Environments)	LMIE	088993D	2	39,700
Civil Engineering	LMIE	065883M	2	39,700
Computer Information Science	LMIE	065882A	2	39,700
Construction Management	LMIE	013179K	2	39,700
Electrical and Information Engineering	LMIE	065884K	2	39,700
Energy and Advanced Manufacturing (Engineering)	LMIE	088991F	2	39,700
Energy and Advanced Manufacturing (Information Technology and Mathematics)	LMIE	088996A	2	39,700
Energy and Advanced Manufacturing (Natural and Built Environments)	LMIE	088991F	2	39,700
Environmental Science	LMIE	065881B	2	39,700
Environmental Science and Engineering	LMIE	088992E	2	39,700
Environmental Science and Engineering (Information Technology and Mathematics)	LMIE	088997M	2	39,700
Geographic Information Science	LMIE	065889E	2	39,700
Information and Communication Technology	LMIE	092179M	2	39,700
Master of Project Management	LMIE	088579G	2	39,700
Mathematics	LMIE	000161E	2	39,700
Mechanical and Manufacturing Engineering	LMIE	065886G	2	39,700
Minerals and Resources (Engineering)	LMIE	088994C	2	39,700
Minerals and Resources (Information Technology and Mathematics)	LMIE	088995B	2	39,700
Minerals and Resources (Natural and Built Environments)	LMIE	088990G	2	39,700
Statistics	LMIE	065891M	2	39,700
Systems Engineering	LMIE	065887G	2	39,700
Doctor of Philosophy (PhD)				
Applied Physics	LPHD	048559J	4	39,700
Bioinformatics	LPHD	065902B	4	39,700
Biomaterials Engineering and Nanomedicine	LPHD	088988A	4	39,700
